Sound Of Sirens:

Sound of Sirens Jen Minkman, An ancient land protected by a Tower of Light its people ever tempted by Siren song and a girl who falls for the wrong boy On the island of Skylge electricity is only for the Currents the rich ruling class who once came from across the sea and brought the holy fire of St Brandan to Skylge Ever since the light in the Brandaris Tower has protected the islanders Heeding the Siren s call will drown your body and steal your soul but the sacred light in the Tower will chase the merfolk away When Skylger girl Enna welcomes her brother back from a long sea voyage he gives her a special present from the mainland an electronic record only playable on a Current device The problem is that Royce Bolton Current heartthrob and the town s most gifted pianist wants it too After she stubbornly refuses to sell the LP featuring his favorite artist he suggests sharing the record by secretly meeting up in his private summer house Taken aback yet thrilled Enna agrees and discovers that there s more than meets the eye when it comes to Current society and the history of Skylge Why do the Sirens tempt the islanders to give themselves up to the sea And where does the Currents monopoly on electricity really come from While struggling with these questions Enna begins to fall for Royce risking everything to be with a guy who is clearly wrong for her She will learn that the sound of Sirens isn t the most treacherous thing out there to haunt her dreams
