twin disasters of which MH370 remains unsolved to the present day No one was prepared for the MH370 tragedy despite all the training they had received As for MH17 Azharuddin laments that the tragedy may have been prevented had full information on the level of conflict in Ukraine been made available during that time In both cases all passengers and crew on board were killed Both tragic events marked a new history in the aviation industry both in Malaysia and in the international arena causing new reforms to burst into action to ensure similar incidents will not happen again In writing this book Azharuddin draws from personal experience conducting his research with and around aviation industry professionals and drawing insights from others involved in both incidents to present a full and raw take on the twin disasters of the Malaysian aviation industry in 2014
