The Life and Teachings of V I Lenin R. Palme Dutt, 2011-06-01 **Collected Works, Volume 1** V. I. Lenin, 2017-10-03 Re launch of the Collected Works of the legendary revolutionary in paperback

Among the most influential political and social forces of the twentieth century modern communism rests firmly on philosophical political and economic underpinnings developed by Vladimir Ilyich Ulyanov later known as Lenin For anyone who seeks to understand the twentieth century capitalism the Russian Revolution and the role of Communism in the tumultuous political and social movements that have shaped the modern world the works of Lenin offer unparalleled insight and understanding Taken together they represent a balanced cross section of his revolutionary theories of history politics and economics his tactics for securing and retaining power and his vision of a new social and economic order This first volume contains four works New Economic Developments in Peasant Life On the So Called Market Question What the Friends of the People Are and How They Fight the Social Democrats The Economic Content of Narodism and the Criticism of It in Mr Struve s Book written by Lenin in 1893 1894 at the outset of his revolutionary activity during the first years of the struggle to establish a workers revolutionary party in Russia [Lenin on Language](#) Vladimir Il'ich Lenin,1983 **Vladimir Lenin** Vladlen Loginov,2019-03-29 In his book Lenin How to Become a Leader Vladlen Loginov one of Russia s leading authorities on Vladimir Lenin discusses the revolutionary leader s early years his family his political awakening and subsequent activities He reveals the beginnings of the creator of the world s first socialist country as well as the source of the future statesman s incredible willpower his ability to influence people his drive to succeed and his leadership qualities All of these the book demonstrates were intrinsic to Lenin s character from a young age In his research Loginov uses new sources and previously unknown documents and memoirs as well as archives of Russians in exile Edited and introduced by Professor Geoffrey Swain *The State and Revolution* V. I. Lenin,2024-01-30 Lenin s most important and controversial theoretical text Lenin s booklet *The State and Revolution* struck the world of Marxist theory like a lightning bolt Written in the months running up to the October Revolution of 1917 Lenin turned the traditional socialist concept of the state on its head arguing for the need to smash the organs of the bourgeois state to create a semi state of soviets or workers councils in which ordinary people would take on the functions of the state machine in a new and radically democratic manner This new edition includes a substantial introduction by renowned theorist Antonio Negri who argues for the continued relevance of these ideas

Collected Works, Volume 3 V. I. Lenin,2019-02-26 Re launch of the Collected Works of the legendary revolutionary in paperback Among the most influential political and social forces of the twentieth century modern communism rests firmly on philosophical political and economic underpinnings developed by Vladimir Ilyich Ulyanov later known as Lenin For anyone who seeks to understand capitalism the Russian Revolution and the role of communism in the tumultuous political and social movements that have shaped the modern world the works of Lenin offer unparalleled insight and understanding [Lenin's Terror](#) James Ryan,2012 This book explores the development of Lenin s thinking on violence throughout his career from the last years of the Tsarist regime in Russia through to the 1920s and the New Economic Policy and provides an important assessment of the significance of ideological factors for understanding Soviet state violence as directed by the Bolshevik

leadership during its first years in power It highlights the impact of the First World War in particular its place in Bolshevik discourse as a source of legitimating Soviet state violence after 1917 and explains the evolution of Bolshevik dictatorship over the half decade during which Lenin led the revolutionary state It examines the militant nature of the Leninist worldview Lenin s conception of the revolutionary state the evolution of his understanding of dictatorship of the proletariat and his version of just war The book argues that ideology can be considered primarily important for understanding the violent and dictatorial nature of the early Soviet state at least when focused on the party elite but it is also clear that ideology cannot be understood in a contextual vacuum The oppressive nature of Tsarist rule the bloodiness of the First World War and the vulnerability of the early Soviet state as it struggled to survive against foreign and domestic opponents were of crucial significance The book sets Lenin s thinking on violence within the wider context of a violent world *V. I. Lenin* ,1970
