## Young Joe:

**So, You're the New Musical Director!** James H. Laster, 2002-07-16 So You re the New Musical Director is aimed at the person who has music training but little or no experience with musical theatre the high school choral director with a degree in music education or the actor participating in community theatre productions It details the duties involved in directing a Broadway musical including overseeing singer and orchestra rehearsals and conducting the musical itself The chapters follow the actual progression of a musical from a discussion of the production team s responsibilities to the final bow Filled with photos illustrations and examples So You re the New Musical Director is a comprehensive guide that no one involved in musical theatre should be without

*Heidegger and Future Presencing (The Black Pages)* Spencer Golub, 2019-10-18 This book applies Heidegger s writings to experimental fictions and film genres in order to study a being there that performs itself beyond liveness and a future that is already here Theatrical mise en sc ne is analyzed as a way of modeling the Heideggerian ontological existential exchanging a deeper presencing for the fictional now of liveness The book is organized around ostensible objects that are in fact things as such and performs its theme via time traveling interruptions decompositions incompleteness failure geometric patterning and above all black pages first cited in Tristram Shandy This is a nuanced original work that combines unexpected sources with even more unexpected writing imagery and correspondences It is part of Golub s ongoing project of lyrically reimagining philosophy and the mise en sc ne of theatrical performance a presence room of consciousness in light of one another

*Suicide and Contemporary Science Fiction* Carl Gutiérrez-Jones, 2015-03-16 Suicide and Contemporary Science Fiction examines the fascination with suicidal crises evident in a range of science fiction Specifically this study explores a seemingly counterintuitive proposition in moments of dramatic scientific and technological change the authors of these works frequently cast self destructive episodes as catalysts for beneficial change Carlos Gutierrez Jones argues that this creative self destruction mechanism is invoked by H G Wells as a means of negotiating Victorian anxieties regarding evolutionary theory by Stanislaw Lem as he wrestles with the prospect of nuclear self destruction at the dawn of the space age by William Gibson as he considers the development of artificial intelligence by Christopher Nolan as he explores the cybernetic colonization of the unconscious by Rian Johnson as he links aspects of video gaming to the neoliberal militarization of institutions and by Margaret Atwood as she considers impending ecological disaster and the rise of bioterrorism These authors often depict such scientific and technological changes in a fashion that requires the central characters to transform themselves in hopes of remaining relevant in a radically altered environment

*John F. Kennedy* Michael O'Brien, 2006-05-16 John F Kennedy creates an absorbing insightful and distinguished biography of one of America s most legendary Presidents While current fashion in Kennedy scholarship is to deride the man s achievements this book describes Kennedy s strengths explains his shortcomings and offers many new

revelations There are many specialized books on Kennedy s career but no first class modern biography one that takes advantage of the huge volume of recent books and articles and new material released by the JFK library Ten years in the making this is a balanced and judicious profile that goes beyond the clash of interpretations and offers a fresh nuanced perspective
