Instead of being the antidote to the rat race that trip convinced John Wood to divert the boundless energy he was devoting to Microsoft into a cause that desperately needed to be addressed While visiting a remote Nepalese school Wood learned that the students had few books in their library When he offered to run a book drive to provide the school with books his idea was met with polite skepticism After all no matter how well intentioned why would a successful software executive take valuable time out of his life and gather books for an impoverished school But John Wood did return to that school and with thousands of books bundled on the back of a yak And at that moment Wood made the decision to walk away from Microsoft and create Room to Read an organization that has donated more than 1 2 million books established more than 2 600 libraries and 200 schools and sent 1 700 girls to school on scholarship ultimately touching the lives of 875 000 children with the lifelong gift of education Leaving Microsoft to Change the World chronicles John Wood s struggle to find a meaningful outlet for his managerial talents and entrepreneurial zeal For every high achiever who has ever wondered what life might be like giving back Wood offers a vivid emotional and absorbing tale of how to take the lessons learned at a hard charging company like Microsoft and apply them to one of the world s most pressing problems the lack of basic literacy *Resources in Education* ,1986 **Subject Guide to Books in Print** ,1997 *El-Hi Textbooks in Print* ,1984
