STUDIES IN DIGITAL COMMUNICATIONS. PART I. FEASIBILITY OF ASYNCHRONOUS MULTIPLEXING. PART II. PERFORMANCE OF HIGH-SPEED DIGITAL COMMUNICATIONS OVER TROPOSCATTER LINKS M P

ISTENBATT,1963 Part I describes experiments and calculations aimed at demonstrating the feasibility of asynchronous time multiplexing for multichannel speech The work here generally served to elaborate on the theoretical analysis and predictions made previously and demonstrated them in the laboratory The experiments tested various aspects of the method and culminated in a realistic multichannel experiment with external coded speech signals The major feasibility demonstrations were done by using a digital computer with A D equipment However an analog extremal coding system was built in order to

demonstrate the equipment simplicity The work here showed that asynchronous time multiplexing is feasible under the conditions treated for systems having as few as 24 sources It is concluded that the advantage of this method over synchronously multiplexed PCM is about 2.7 for 100 sources and 2.1 and 24 sources Increases in this advantage should be possible with system improvements The speech quality with this advantage is not distinguishable with casual listening from that of the usual PCM Author **Communicating in Groups** Katherine L. Adams, Gloria J. Galanes, 2006 Communicating in Groups offers a concise step by step introduction to the theory and practice of small group communication and teaches students to develop and apply critical thinking in group problem solving With the firm belief that group participation can be an uplifting and energizing experience authors Kathy Adams and Gloria Galanes give students the tools they will need in order to achieve this outcome Research and theory are presented with a focus on what is important to students understanding their group experiences and making them effective communicators College Student Involvement in an On-line Class Liliana Mina, 2006 **Computer Sciences Technical Report**, 1985 **Principles of Effective Teaching in the Online Classroom** Renee E.
