Court Assistance in the Taking of Evidence in International Arbitration Lorenz Raess, 2020-10-19 Although international arbitration is widely hailed as an efficient confidential and flexible way of settling commercial disputes it has its limits The arbitral tribunal s lack of coercive power is thrown into particularly stark relief when it comes to the taking of evidence from third parties outside the arbitral proceedings If they do not comply voluntarily with the request of the arbitral tribunal to testify as a witness or disclose documents assistance must be sought from state courts As the success of a case hinges on the evidence that a party can obtain it is crucial to understand how to obtain evidence through state courts At the heart of this work is the question of the conditions under which state courts may offer assistance in international arbitral proceedings With a special focus on Switzerland and comparative aspects this book provides helpful tactical insights for arbitral practitioners around the world
