Task Centered Casework:

Task-centered Casework William James Reid, Laura Epstein, 1972 Problems, Tasks and Outcomes E. Matilda Goldberg, Jane Gibbons, Ian Sinclair, 2021-11-07 In the 1980s although most social workers organised their time and described their work in terms of cases research studies had cast serious doubts on the efficacy of working in this way As a result there had been growing anxiety about what social workers do what they ought to do and the training they needed Task centred casework was an approach to social work which proposed a solution to some aspects of this dilemma Growing out of the surprising results of an American research study it broke free from the traditional psycho analytic approach to casework It aimed at clarity of purpose a concentration on the clients perceptions of the problems openness about clients and helpers intentions and agreement about what is to be done and achieved within a specified time Originally published in 1985 this book brings together three British studies that accompanied and in some respects pioneered the introduction of task centred casework into the United Kingdom The studies describe and evaluate task centred casework with social services department clients with young people on probation and with men and women referred to hospital after poisoning themselves The research suggests what task centred casework can and cannot achieve describes how clients experience it and seeks to define the skills it requires The studies also provide some reasons why many previous studies of social work have failed to find evidence for social work effectiveness The book uses much case material to illustrate methods of task centred casework and its outcomes as seen by clients social workers and an independent outsider It should still be of interest to social workers teachers of social work and social work students More generally it will be welcomed by all those who are interested in building social work on a surer basis than anecdote and fashion *Training in Task-centered Casework* Nancy Sharp Dickinson, 1983 The Theory and Practice of Task Centered Casework John Raymond Ashton, 1981 **Task-centered Practice** William James Reid, Laura Epstein, 1977 Based on the papers of the Conference on applications of task centered treatment held at the University of Chicago 1975 **Essential Theory for Social Work Practice** Chris Beckett, 2006-04-06 I can say without equivocation this text is without doubt the best book about social work I have read Chris Beckett explores the purpose values activities and theories of social work in an ever changing social context that is clearly identified and examined Stephanie Petrie University of Liverpool Every day social workers face decisions that will significantly impact others lives and it is essential that these practical assessments are supported by a sound understanding of social work theory In this innovative and highly accessible textbook Chris Beckett explains how an understanding of these theoretical issues can improve the knowledge and skills base of professional practice Essential Theory for Social Work Practice is an engaging and readable text with a distinctively realistic and honest approach to the realities of everyday practice Framed in a comprehensive and logical structure Part 1 establishes what social workers do and the tools they need Part 2 considers how to assess handle and support change in others Part 3 explores the wide range of roles that social workers must fulfil Part 4

strengthens these links between theory and practice Exercises case examples chapter summaries and practice notes are used to great effect in each chapter enabling students to apply theory to practice as they progress through the book The book is an invaluable core text for all undergraduate social work students and offers excellent support for practitioners in their every day practice

Task-Centred Social Work Mark Doel, Peter Marsh, 2017-03-02 Task centred practice is a forward thinking goal orientated approach to social work It is a practice based approach built on research which reflects the new mood being developed in the social work field and it has now been successfully used in a wide variety of settings and circumstances The theme of Task Centred Social Work is partnership exploring the principles on which task centred practice is based while offering clear and practical guidance for work whether with people who seek help with social problems or with those who are involuntary clients The book describes in detail the sequence of work to help clients move from present problems to future goals This is illustrated by a case study which runs through the chapters and uses an imaginative recording style Checklists and bibliographies are also used to aid understanding The authors respond to the model s critics and explore both the scope and the limitations of the task centred practice Social professionals whether working in practice or in training settings will find this book an invaluable aid to the development of successful social practice work

An Experiment in Task-centered Casework Nancy Moore, Beatrice Strayer, 1973

The Task-Centred Book Peter Marsh, 2005 Task centred social work is one of the best known and most strongly supported approaches to social work practice The model fits well with the long standing emphasis in social work on empowerment as well as with more recent pressure for evidence based practice This text is a radical departure from traditional literature on social work methods The main reference point is the voice of practitioners service users and carers as researched and developed by the authors over twenty years Case studies are used throughout the book to build on the experiences of practitioners and the people with whom they have worked and to demonstrate practical skills The Task Centred Book is a core text for both undergraduate social work courses and continuing professional development training as well as being a practical book for the active professional which will support the development and implementation of task centred practice
