Overcoming Anxiety: How to Stop Worrying and Start Living Anthony Joshua, 2012-05-22 A guide to understanding why people worry and how to change your thought patterns to decrease your worrying habits. Facts about how to end business-related worries in order to avoid physical and mental problems. Worrying may be man's biggest natural enemy since doctors discovered stress. Stress is a physiological response to anything that threatens a person mentally, emotionally, or physically. Worry actually causes people stress and it also creates emotional baggage that prevents people from thinking clearly. Worrying also has a profound negative impact on a person's ability to solve problems. When people are worried, they lose their objectivity and their ability to logically resolve their own personal issues. Negative thinking ensues and eventually they become so engrossed in gloom and doom thinking that they're unable to act upon their problems. The first thing that you have to realize about worrying is that it is a choice, not an inevitability.

So You Want to be a Teacher? Mary C. Clement, 2002 Coming on the heels of the media announcing a national teacher shortage, this book outlines why people become teachers and helps readers reflect upon their own history with teachers before making a commitment to a teacher education program. Common myths are explored and debunked, such as that old adage: "Those who can do and who can't teach." The book is designed for the general public as well as students in introductory courses in education. Also includes invaluable references and hints of employment.
