## West Pathway:

Cultural Landscape Report for Armory Square Allison A. Crosbie, 2010 *The Sigiriya Royal Gardens* Nilan Cooray, 2012-10-19 Besides the efforts that are of a descriptive and celebrative nature studies related to Sri Lanka's historical built heritage largely view material remains in historical sociological socio historical and semiological perspectives There is hardly any serious attempt to view such material remains from a technical analytical approach to understand the compositional aspects of their design The 5th century AC royal complex at Sigiriya is no exception in this regard The enormous wealth of information and the material remains unearthed during more than 100 years of field based research by several generations of archaeologists provide an ideal opportunity for such analysis The Sigiriya Royal Gardens fills the gap in research related to Sri Lanka's historical built heritage in general and to Sigiriya in particular Therefore the present research attempts to read Sigiriya as a landscape architectonic design to expose its architectonic composition and design instruments

**Sustainability, Eco-efficiency, and Conservation in Transportation Infrastructure Asset Management** Massimo Losa, Tom Papagiannakis, 2014-04-28 Worldwide there is a growing interest in efficient planning and the design construction and maintenance of transportation facilities and infrastructure assets The 3rd International Conference on Transportation Infrastructure ICTI 2014 Pisa April 22-25 2014 contains contributions on sustainable development and preservation of transportation infrastructure assets with a focus on eco efficient and cost effective measures Sustainability Eco efficiency and Conservation in Transportation Infrastructure Asset Management includes a selection of peer reviewed papers on a wide variety of topics Advanced modeling tools LCA LCC BCA performance prediction design tools and systems Data management monitoring and evaluation Emerging technologies and equipments Innovative strategies and practices Environmental sustainability issues Eco friendly design and materials Re use or recycling of resources Pavements tracks and structures Case studies Sustainability Eco efficiency and Conservation in Transportation Infrastructure Asset Management will be particularly of interest to academics researchers and practitioners involved in sustainable development and maintenance of transportation infrastructure assets

*The Four Great Temples* Donald F. McCallum, 2008-11-30 Few periods in Japanese history are more fascinating than the seventh century This was the period when Buddhism experienced its initial flowering in the country and the time when Asukadera Kudara Odera Kwaradera and Yakushiji the Four Great Temples as they were called in ancient texts were built Despite their enormous historical importance these structures have received only limited attention in Western literature primarily because they are now ruins Focus has been placed instead on Horyuji a beautifully preserved structure but not a key temple of the period Donald McCallum seeks in this volume to restore the four great temples to their proper place in the history of Japanese Buddhism and Buddhist architecture Extraordinary archaeological discoveries in the past few decades in the Asuka Fujiwara area provide the basis for the monumental task McCallum has set for himself Three of the temples have been studied

archaeologically but one Kudara Odera the first royal temple in Japan has until recently been known only through textual references primarily those mentioning its nine story pagoda a format closely linked to the grandiose royal temples of China and Korea A series of digs carried out between 1997 and 2001 at Kibi Pond yielded what are thought to be the remains of Kudara Odera A platform the appropriate size for a large pagoda has been uncovered at the site indicating the reliability of the textual sources These results have necessitated a rethinking of early Buddhist architecture in Japan The Four Great Temples gives the first detailed account in the English language of these excavations In his detailed analyses of each of the four temples McCallum considers historiographical issues settings and layouts foundations tiles relics and icons and allows readers to follow their chronological evolution A key feature is the interweaving of archaeological and documentary data to clarify numerous historical problems that have until now resisted plausible solutions Although the focus is on temples the book looks at broader political and religious developments that serve as a context for the study It further makes an effort to unify data on great royal temples in China Korea and other parts of Japan thereby providing cross cultural insights into a matter that has frequently been discussed only in terms of a single region The Four Temples is a masterful multifaceted study that will fundamentally alter and enrich current understanding of Japan s ancient Buddhist temples It is sure to generate considerable discussion among scholars in the fields of Japanese and Asian history art history and Buddhist studies

**State of New York Supreme Court**, 1910 **New York Court of Appeals. Records and Briefs.** New York (State). Court of Appeals., 1910 Volume contains 204 NY 581 U S Wood Preserving Co v City of N Y 204 NY 324 Utes v Erie R R Co 204 NY 58 Walsh v N Y C H R R R Co Mapping COVID-19 in Space and Time Shih-Lung Shaw, Daniel Sui, 2021-07-14 This book describes the spatial and temporal perspectives on COVID 19 and its impacts and deepens our understanding of human dynamics during and after the global pandemic It critically examines the role smart city technologies play in shaping our lives in the years to come The book covers a wide range of issues related to conceptual theoretical and data issues analysis and modeling and applications and policy implications such as socio ecological perspectives geospatial data ethics mobility and migration during COVID 19 population health resilience and much more With accelerated pace of technological advances and growing divide on political and policy options a better understanding of disruptive global events such as COVID 19 with spatial and temporal perspectives is an imperative and will make the ultimate difference in public health and economic decision making Through in depth analyses of concepts data methods and policies this book stimulates future studies on global pandemics and their impacts on society at different levels
