R. S. Therborn an assessment of the legacy of Gramsci by John Merrington exposition and criticism of the work of Sartre by Andrzej Gorz and Ronald Aronson major assessments of Althusser by Norman Geras and Andrzej Glucksmann and a wide ranging interview with the Italian philosopher Lucio Colletti that provides an overview of Western Marxism **Western Marxism**, 1977-01-01 **Western Marxism** Knopf Doubleday Publishing Group, 1978-06-01 Western Marxism New Left Review, **Western Marxism. A critical reader. [By] Gareth Stedman Jones, Michael Löwy a.o**, 1977 **Western Marxism**, 1978 **Georg Lukacs** Michael Löwy, 2023-11-21 On the 100th anniversary of the publication of *History and Class Consciousness* a new edition of this indispensable guide to Lukacs's thought and politics The philosophical and political development that converted Georg Lukacs from a distinguished representative of Central European aesthetic vitalism into a major Marxist theorist and Communist militant has long remained an enigma In this this now classic study Michael Löwy for the first time traced and explained the extraordinary mutation that occurred in Lukacs's thought between 1909 and 1929 Utilizing many as yet unpublished sources Löwy meticulously reconstructed the complex itinerary of Lukacs's thinking as he gradually moved towards his decisive encounter with Bolshevism The religious convictions of the early Lukacs the peculiar spell exercised on him and on Max Weber by Dostoyevskyan images of pre-revolutionary Russia the nature of his friendships with Ernst Bloch and Thomas Mann were amongst the discoveries of the book Then in a fascinating case study in the sociology of ideas Löwy showed how the same philosophical problematic of *Lebensphilosophie* dominated the intelligentsias of both Germany and Hungary in the pre-war period yet how the different configurations of social forces in each country bent its political destiny into opposite directions The famous works produced by Lukacs during and after the Hungarian Commune *Tactics and Ethics* *History and Class Consciousness* and *Lenin* were analysed and assessed A concluding chapter discussed Lukacs's eventual ambiguous settlement with Stalinism in the thirties and its coda of renewed radicalism in the final years of his life In this new edition Löwy has added a substantial new introduction which reassesses the nature of Lukacs's thought in the light of newly published texts and debates Marcuse and Freedom (RLE Social Theory) Peter Lind, 2020-07-26 This comprehensive study of Marcuse's thought concentrates on his theory of freedom arguing that it is this which supplies the key to all his writings This argument is substantiated by a detailed chronological examination of Marcuse's works The author shows the rigorous logic underlying Marcuse's thinking which is often obscured in Marcuse's own presentation and pays particular attention to the

influence of Heidegger and of Marx's notion of human labour This sympathetic reconstruction of the subject attempts to rescue Marcuse from misunderstanding and superficial criticism and argues that Marcuse's most famous work *One Dimensional Man* is in fact an aberration from the mainstream of his work This book forms one of the most accessible and reliable treatments of Marcuse available *European Political Thought, 1815-1989* Spencer M. Di Scala, 2019-03-08 This book presents an overview of European political thought from the fall of Napoleon Bonaparte in 1815 to the fall of the Berlin Wall in 1989 by placing the major ideas within their historical context including discussions of major twentieth century totalitarian movements **Modern Social Theory** Ian Craib, 2015-08-12 The revised edition of this widely acclaimed textbook provides a clear accessible and comprehensive introduction to modern social theory As with the first edition the book is based around the themes of structure and action After the introductory chapters which examine the nature of theory and its role in the social world the book then turns to theories of action and the inability of those theories to comprehend social structures in a coherent way Part 1 covers Parson's structural functionalism and the development of conflict theory and neofunctionalism rational choice theory symbolic interactionism ethnomethodology and structuration theory Part 2 looks at structuralism structuralist Marxism and the development of post structuralist and postmodernist theory Part 3 examines Critical Theory and the work of Jurgen Habermas In conclusion Ian Craib discusses current trends in theory and what might be expected in the future This second edition has been revised throughout There are new chapters on rational choice theory and structuration theory and existing chapters have been extended to deal with the development of neofunctionalism postmodernism and the recent works of Habermas as well as recent developments in other approaches Throughout the aim of the book is to demystify a difficult subject area emphasising the practical and everyday nature of theoretical thinking in the context of making sense of a rapidly changing world The late Ian Craib was Lecturer in Sociology at the University of Essex

**Althusser** Gregory Elliott, 2020-05-05 In the international renaissance of Marxist theory during the 1960s and early 1970s few projects generated as much excitement or controversy as Louis Althusser's return to Marx One of the most ambitious enterprises in the post war history of Marxism Althusser's reconstruction of Marx's doctrine was heralded as a new start in some quarters dismissed as a refurbished Stalinism in others Today more than twenty years after the appearance of his major works and amidst the profound contemporary crisis of Marxism Althusser is the victim rather than the beneficiary of philosophical fashion Paradoxically the oblivion into which he has now fallen affords the opportunity for a return to Althusser a reassessment that advances beyond the unconsidered responses that Marxist commentators have often given to his work In this first full scale study in English of Althusser's career Gregory Elliott draws on a wide range of untranslated material surveying the political and intellectual context of Althusser's initiative in *For Marx* and *Reading Capital* He analyses the nature of the Marxism developed in these works and charts their author's subsequent evolution concluding with a balance sheet of the French Marxist's contribution to historical materialism At once sympathetic and critical Althusser The
