play an instrument All you need to get started is the ability to hum a melody You will also need a phone or tablet with a recording app Many hit songs are written with nothing more than a recording app on cell phone Pretty simple The good news is you don't need to read and write music in order to be a great songwriter Check out these songwriters who never learned to read music Michael Jackson Paul McCartney Taylor Swift Eric Clapton the Beatles Eddie Van Halen Bob Dylan Jimi Hendrix Slash Stevie Wonder and Lionel Richie They didn't learn to read music because it was never necessary It's not necessary for you either I started off just like you I had a desire to write songs but had never written one My first few songs were pretty raw and I would be embarrassed to have you hear them now But over the years I developed my writing to the point of getting my songs and jingles on TV radio Spotify iTunes and most of the major streaming services I even had one of my songs placed in a movie I was not gifted with extraordinary talents I just studied with some of the industry's top professional songwriters and kept writing The more I wrote the better my songs became If I can do that so can you Here's another way to look at it If you were stuck on a deserted island and the only way you could get off was to read this book and write three good songs I guarantee that you would write three good songs It's just a matter of learning the craft and putting in the time Nothing magical If you're just starting out as a songwriter your first few songs will be rough That's normal It doesn't mean you're a bad songwriter It just means you're a beginning songwriter If you stick with it you'll get better Start writing and keep writing Even if you're complete beginner you will learn how to
