

12 IDEAS TO INCREASE PRODUCTIVITY

1 CHOOSE THE RIGHT TIME 

Nearly everyone has times of the day when they are most effective and times when they tend to drag. It's smart to schedule the most critical tasks for your most effective time of the day.

6 BATCH SIMILAR TASKS TOGETHER 

Do all your emailing at one time. Make all your phone calls at another. Open your snail mail during a set block of time. You'll waste less time by doing your work in this fashion.

7 SET A TIMER 

Even if a task might take hours, starting will seem easier if you simply give yourself 30 minutes to get as much done as you can. A time limit seems to help many people concentrate and work better, too.

2 TOSS IT 

If a task doesn't really need to be done, just get rid of it altogether.

8 SET TARGETS 

For example, if you have to make cold-calls for your sales job, tell yourself that you're not getting up for any reason until you've made at least 100 calls. Regardless of what happens, refuse to stop until you hit your target.

3 GET THE BAD STUFF OUT OF THE WAY 

Do the unpleasant items quickly and as early in the day as possible.

9 USE THE PARETO PRINCIPLE. 

This principle states that 20% of the actions you could take will provide you with 80% of the benefits. So *focus on the tasks that will accomplish the most.* Unfortunately, these are frequently the tasks that are not enjoyable. You might be surprised how little you really have to do if you focus on the critical 20%.

4 SET A GOAL EACH DAY (OR NIGHT) 

In the morning, decide what you want to accomplish that day. This can be even more effective when planned the night before. *Once you have a sense of direction, you can spend all your time getting things done!*

10 DELEGATE SOME OF YOUR WORK. 

Is there anyone else who can help you? The people around you are resources. When appropriate, use their time and talents wisely to get things done more quickly.

5 ELIMINATE ALL COMMUNICATION 

While you're working, turn off the phone / cell phone, and don't check your email. Hang a sign that says, "Do not disturb," if necessary. You don't have to do this for all your tasks, but at least do it during the more difficult items.

12 INCREASE YOUR SPEED 

It sounds silly, but this can really help. Try doing everything a little faster. Walk faster, talk faster, type faster, and read faster.

11 SET A DEADLINE 

Having a specific endpoint will really help to focus your time and energy. If a task doesn't feel necessary, chances are that it won't get done.

Ideas Digital Productivity:

Rethinking Culture and Creativity in the Digital Transformation Luciana Lazzeretti, Stefania Oliva, Niccolò Innocenti, Francesco Capone, 2023-03-31 This book discusses the role of digital technologies in the growth and development of cultural organizations and the creative sector. It includes contributions by authoritative scholars who address this topic through different perspectives, methodologies, and approaches. The first part of the volume focuses on theoretical contributions that identify the main transformations caused by the digital revolution, the use of data, outlining new possible analytic frameworks and future lines of research. The second part of the volume presents empirical contributions applied to different fields in the study of the cultural and creative sectors. These range from analyses of traditional cultural organizations such as museums, the evolution of trajectories in the fashion industry, techno-creative communities, digital services for tourism to cultural and creative industries and wealth and creative work. This edited volume will be of great value to scholars in the fields of Economics and Management, including Economic Geography and Economic Development. Students and researchers interested in learning more about new technologies and their impact on cultural and creative sectors will also benefit from this book. This book was originally published as a special issue of *European Planning Studies*. [Handbook of Blockchain, Digital Finance, and Inclusion, Volume 2](#)

David Lee Kuo Chuen, Robert H. Deng, 2017-08-16 *Handbook of Blockchain Digital Finance and Inclusion Volume 2*. ChinaTech Mobile Security and Distributed Ledger emphasizes technological developments that introduce the future of finance. Descriptions of recent innovations lay the foundations for explorations of feasible solutions for banks and startups to grow. The combination of studies on blockchain technologies and applications, regional financial inclusion movements, advances in Chinese finance, and security issues delivers a grand perspective on both changing industries and lifestyles. Written for students and practitioners, it helps lead the way to future possibilities. Explains the practical consequences of both technologies and economics to readers who want to learn about subjects related to their specialties. Encompasses alternative finance, financial inclusion, impact investing, decentralized consensus ledger, and applied cryptography. Provides the only advanced methodical summary of these subjects available today.

Managing Digital Transformation Andreas Hinterhuber, Tiziano Vescovi, Francesca Checchinato, 2025-12-11 Digital transformation is inevitable. The eras of if and when are over, and the urgent question of how to best lead, manage, and navigate this process is upon us. Now in its second edition, *Managing Digital Transformation* brings together scientifically grounded insights into the design and implementation of true digital strategies. Acknowledging a plurality of strategic approaches, the book highlights crucial differentiating factors in terms of business scale, market environment, and supplier relationships. Case studies from around the world are introduced and explored, including Adobe, Domino's Pizza, Deutsche Bahn, L'Oréal, and the Bulgari Group. Key themes covered in the book include digital business models, data analytics, the role of the Chief Digital Officer, and emerging technologies such as AI. An expert-led guide to digital strategy, this book highlights

Organizational Learning in the Age of Data Andrew Banasiewicz,2021-07-08 This book discusses the impact of advanced information technologies such as data processing machine learning and artificial intelligence on organizational decision making processes and practices One of the book s central themes is the interplay between human reasoning and machine logic in the context of organizational functioning specifically the fairly common situations in which subjective beliefs are pitted against objective evidence giving rise to conflict rather than enhancing the quality of organizational sensemaking Aiming to not only raise the awareness of the potential challenges but also to offer solutions the book delineates and discusses the core impediments to effective human information technology interactions and outlines strategies for overcoming those obstacles on the way to enhancing the efficacy of organizational decision making

The Economics of Technological Change and Employment in the Digital Machine Age Falk Urban,2015-12-22 Master s Thesis from the year 2015 in the subject Economics Other grade 1 0 University of Paderborn language English abstract Technology as a Matter of Economic Interest A timeliness object of discussion since the first noteworthy appearance of economic literature has always been the construct of technological unemployment The fear of people being put out of work by some machines really took off during the industrial revolution in the late 18th century owed to the invention of the steam machine which eventually lead to the automation of the weaving craft The economic interest in the relationship between new technology and

its social impact is mostly based on the idea of increased productivity. If we consider a production function containing an arbitrary number of input factors, then given a certain amount of output, profits will decrease if any of those inputs is becoming more expensive. In the course of time, before human and property rights were installed, this has been most often the factors land and labor. Labor insofar as it depended massively on the ability of keeping people healthy and well nourished and also on the expected life span, which was certainly lower centuries ago. The United Kingdom was affected first and severest by the invention of the steam engine. Ulrike Herrmann (2013) explains the necessity of this invention on the scarcity of labor due to the wars and famines plaguing Europe of that era. This disruptive general purpose technology is the first encounter of employees with massive technological unemployment and the almost obliteration of certain professions, i.e. weavers.
