Speaking Minds Peter Baumgartner, Sabine Payr, 2014-07-14 Few developments in the intellectual life of the past quarter century have provoked more controversy than the attempt to engineer human like intelligence by artificial means Born of computer science this effort has sparked a continuing debate among the psychologists neuroscientists philosophers and linguists who have pioneered and criticized artificial intelligence Are there general principles as some computer scientists had originally hoped that would fully describe the activity of both animal and machine minds just as aerodynamics accounts for the flight of birds and airplanes In the twenty substantial interviews published here leading researchers address this and other vexing questions in the field of cognitive science The interviewees include Patricia Smith Churchland *Take It Apart and See How It Runs* Paul M Churchland *Neural Networks and Commonsense* Aaron V Cicourel *Cognition and Cultural Belief* Daniel C Dennett *In Defense of AI* Hubert L Dreyfus *Cognitivism Abandoned* Jerry A Fodor *The Folly of Simulation* John Haugeland *Farewell to GOFAI* George Lakoff *Embodied Minds and Meanings* James L McClelland *Toward a Pragmatic Connectionism* Allen Newell *The Serial Imperative* Stephen E Palmer *Gestalt Psychology Redux* Hilary Putnam *Against the New Associationism* David E Rumelhart *From Searching to Seeing* John R Searle *Ontology Is the Question* Terrence J Sejnowski *The Hardware Really Matters* Herbert A Simon *Technology Is Not the Problem* Joseph Weizenbaum *The Myth of the Last Metaphor* Robert Wilensky *Why Play the Philosophy Game* Terry A Winograd *Computers and Social Values* and Lotfi A Zadeh *The Albatross of Classical Logic* *Speaking Minds* can complement more traditional textbooks but can also stand alone as an introduction to the field Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Edge Entanglements with Mental Health Allyship, Research, and Practice Tim Barlott, Jenny Setchell, 2022-12-30 *Edge Entanglements* traverses the borderlands of the community mental health sector by plugging in to concepts offered by Gilles Deleuze and Felix Guattari along with work from Mad Studies postcolonial and feminist scholars Barlott and Setchell demonstrate what postqualitative inquiry can do surfacing the transformative potential of freely given relationships between psychiatrised people and allies in the community Thinking with theory the authors map the composition and generative processes of freely given ally relationships *Edge Entanglements* surfaces how such relationships can unsettle constraints of

the mental health sector and produce creative possibilities for psychiatrised people Affectionately creating harmonies between theory and empirical data the authors sketch ally relationships in ways that move Allyship is enacted through micropolitical processes of becoming complicit ongoing movement towards taking on the struggle of another as your own Barlott and Setchell s work offers both conceptual and practical insights into postqualitative experimentation relationship oriented mental health practice and citizen activism that unsettles disciplinary boundaries Ongoing disruptive movements on the margins of the mental health sector such as freely given relationships offer opportunities to be otherwise Edge Entanglements is for people whose lives and practices are precariously interconnected with the mental health sector and are interested in doing things differently This book is likely to be useful for novice and established applied new material and or posthumanist scholars interested in postqualitative theory driven research health practitioners seeking alternative or radical approaches to their work and people interested in citizen advocacy activism and community organising in out of the mental health sector
