World Congress on Medical Physics and Biomedical Engineering, June 7-12, 2015, Toronto, Canada David A. Jaffray, 2015-07-13 This book presents the proceedings of the IUPESM World Biomedical Engineering and Medical Physics, a tri-annual high-level policy meeting dedicated exclusively to furthering the role of biomedical engineering and medical physics in medicine. The book offers papers about emerging issues related to the development and sustainability of the role and impact of medical physicists and biomedical engineers in medicine and healthcare. It provides a unique and important forum to secure a coordinated, multileveled global response to the need, demand, and importance of creating and supporting strong academic and clinical teams of biomedical engineers and medical physicists for the benefit of human health.

The Coaches' Handbook Jonathan Passmore, 2020-10-13 This comprehensive practitioner guide provides an accessible, evidenced-based approach aimed at those new to coaching and who may be undertaking coach training for a certificate in coaching or professional credentials or accreditation with the AC/ICF/EMCC/CMI or ILM. The book will also be useful for those who want to enhance their coaching skills. *The Coaches Handbook* is edited by Jonathan Passmore, an internationally respected expert and executive coach, with chapters from leading coaching practitioners from across the world. The book is divided into seven sections. Section one examines the nature of coaching, its boundaries, the business case for coaching, and how organisations can build a coaching culture. Section two focuses on deepening our self-understanding and understanding our clients, the non-violent communications mindset, and the coaching relationship. Section three focuses on the key skills needed for coaching, including goal setting, powerful questions, active listening, using direct communications, and the role of silence, emotions, and challenge in coaching. Section four offers a range of coaching approaches, including behavioural, person-centred, solution-focused, psychodynamic, neuroscience, narrative, positive psychology, outdoor, eco-coaching, team coaching, careers coaching, and integrated coaching. Section five focuses on fundamental issues in coaching, such as ethics and contracting, and evaluation. Section six explores continuous professional development, reflection, and the role of supervision, as well as how to establish your coaching business. The final section contains a host of coaching tools which practitioners can use to broaden their practice. Unique in its scope, this key text will be essential reading for coaches, academics, and students of coaching. It is an important text for anyone seeking to understand the best practice approaches that can be applied to their coaching practice, including human resources, learning, and development, and management professionals and executives in a coaching role.
