Pasanen,2021-07-15 This is the story of a boy born and raised in Bruce Mines a town of five hundred people in northern Ontario near the end of the Great Depression When Art Pasanen was just four years old nuclear fission was discovered ushering in a new age of power generation an industry which was destined to play a significant role in his life From Splitting Wood to Splitting Atoms tracks Art s life from a shy introverted childhood to graduation from a large American university and a long distinguished career as a nuclear engineer The most impactful memories of his career are associated with his responsibility to supervise the initial start up programs of reactors both in Canada and around the world
