The Basque Table:

Basque Table Teresa Barrenechea,2005-12-03 Originally published in hardcover in 1998 The Basque Table is now available in paperback Although popular in the 90s Spanish food has since become one of the hottest trends in the culinary world With Spanish tapas restaurants popping up all over more and more people across the globe are learning to love the fresh and wholesome flavors that characterize Spanish and especially Basque cuisine This book offers 130 authentic recipes for every course from an expert on Basque regional cooking The Basque Table Mary Alustiza,1996 Basque lore customs vignettes treasured recipes of the Alustiza family The Basque Contention Ludger Mees,2019-07-19 To the outside world for some half a century the words Basque Country have provoked an almost instant association with the Euskadi Ta Askatasuna ETA Basque Homeland and Liberty separatist group and violent conflict The Basque Contention Ethnicity Politics Violence attempts to undo this simplistic correlation and for the first time provide a definitive history of the wider political issues at the heart of the Basque Country Drawing on three decades of research on Basque nationalism Ludger Mees weaves together the various historical and contemporary strands of this contention from the late medieval kingdoms of Spain and France and the first articulations of a Basque ethno particularism to the dissolution of ETA in 2018 and all manner of dictatorships conflict peace civil war political intrigue hope and failure in between For anyone who has ever wanted to gain an insight into the Basque Country beyond the headlines of ETA and grasp the complexity of its relationship with Spain France and indeed itself this volume provides a detailed yet digestible basis for such an understanding Gabelentz and the Science of Language James McElvenny,2025-10-01 The German sinologist and general linguist Georg von der Gabelentz 1840 1893 occupies a crucial place in linguistic scholarship around the end of the nineteenth century As professor at the University of Leipzig and then at the University of Berlin Gabelentz was present at the main centers of linguistics of the time He was however generally critical of the narrow technical focus of mainstream historical comparative linguistics as practiced by the Neogrammarians and instead emphasized approaches to language inspired by a line of researchers stemming from Wilhelm von Humboldt Gabelentz alternative conception of linguistics led him to several pioneering insights into language that anticipated elements of the structuralist revolution of the early twentieth century Gabelentz and the Science of Language brings together four essays that explore Gabelentz contributions to linguistics from a historical perspective In addition it makes one of his key theoretical texts Content and Form of Speech available to an English speaking audience for the first time **Cultural Education - Cultural Sustainability** Zvi Bekerman,Ezra Kopelowitz,2008-02-06 This volume is a path breaking contribution to the study of efforts of diaspora indigenous and minority groups broadly defined to use education formal and informal to sustain cultural continuity while grappling with the influences and demands of wider globalizing nationalizing or other homogenizing and assimilatory forces Particular attention is given to groups that use educational elements other than second language teaching alone in programs to sustain their particular cultural traditions

The focus of the book on cultural sustainability changes the nature of questions posed in multicultural education from those that address the opening of boundaries to issues of preserving boundaries in an open yet sustainable way As forced and elective immigration trends are changing the composition of societies and the educational systems within them bringing a rich diversity of cultural experience to the teaching learning process diaspora indigenous and minority groups are looking more and more for ways to sustain their cultures in the context of wider socio political influences This volume is a first opportunity to consider critically multicultural efforts in dialogue with educational options that are culturally particularistic but at the same time tolerant Academics will find this an excellent reference book Practitioners will draw inspiration in learning of others efforts to sustain cultures and will engage in critical reflection on their own work vis vis that of others Teachers will realize they do not stand alone in their educational efforts and will uncover new strategies and methodologies through which to approach their work

Community Series: Spanish Psycholinguistics, volume II Isabel Fraga, Pilar Ferré Romeu, Jon Andoni Dunabeitia, Mikel Santesteban, 2025-12-05 This Research Topic is the second volume of Research Topic Community Series Spanish Psycholinguistics Please see the first volume here Spanish is the second most widely spoken language in the world used by more than 400 million people on the planet This being the case it is not surprising that the beginning of the 21st century has represented a clear transition towards the professionalization of experimental research in Spanish psycholinguistics Hundreds of research groups from different countries have focused their activity on Spanish as a target language and more and more scientific studies based on Spanish shed light on the cognitive processes that underlie the acquisition learning perception or production of language It is not difficult to find centers specialized in the psycholinguistic or neurolinguistic study of people who speak Spanish as their first language just as it is not difficult to find laboratories that explore the learning and processing of Spanish as a second language additional language heritage language or foreign language Besides the last decades have witnessed the progressive emergence and consolidation of research groups and centers with their laboratories and main scientific actions based in the Spanish territory and regardless of the specific target language used in their daily research agenda together they have contributed to establishing Spain as a key player in the international psycholinguistic arena The current Community Series is aimed at enhancing visibility of the psycholinguistic research done by groups laboratories and centers whose main research activity is carried out in Spain or whose target language in their investigations is Spanish or any of the other languages spoken in Spain Catalan Galician Basque or other regional languages This volume will contribute to boosting scientific outreach of the psycholinguistic community working in Spain or on Spanish This Community Series volume is open to submissions from researchers from any country that study Spanish either as a native or non native language from a psycholinguistic perspective Also this volume accepts submissions of any research group exploring psycholinguistics and set in Spain regardless of the language they use as target of research be it a majority or a minority or minoritized language This extends to Spanish laboratories and research
