Wright,2014-10-01 If the origin of the colonial period was accidental the ending was not The representatives of the thirteen colonies who approved the Declaration of Independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking The events that led to their decision took place over a period of nearly 300 years Looking back the wonder is that it culminated so quickly For a century after its discovery the New World was little more than

a lode to be mined by adventurers seeking profits It wasn't until the end of the sixteenth century that serious efforts were made to establish permanent colonies Even then the perils of the journey and threats of starvation inhibited settlement But settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land They were a mixed lot English Separatists from Leiden French Huguenots Dutch burghers Mennonite peasants from the Rhine Valley and a few gentleman Anglicans But they shared a quality of toughness Here is their story from award winning historian Louis B Wright

The Founding of a Nation Elizabeth Richards,2017-07-03 The story of our country really began way back in the history of England in the year 1215 when King John of England was forced by some of his barons to sign a document called the Magna Carta This document among other things prevented the king from taxing the barons without their consent King John had driven England nearly to bankruptcy because he spent so much money to fund his continual participation in the Crusades The Crusades were a period in history when Christian knights tried to take back the Holy Land which had been conquered by the Muslims The barons were tired of being taxed to pay for his wars This document was essentially a document in medieval times to clarify the differences between the three powers in England at the time the Catholic Church the king and the barons This is an important document because it was the first time in history that people other than the king or the church were given some powers It did nothing about grant rights to the peasants and the merchant class This is important because it was the very first time in the history of the world that the king and the church had their powers curbed Not one other country in the world at this time had a Magna Carta many still don't and this is important because it was the English who were the first ones to colonize the areas of our country which was first known as the thirteen colonies These colonists brought with them these truly revolutionary ideas of individual freedom

The Thirteen Colonies Brendan January,2001-03 Examines the creation of the original thirteen colonies in the United States from the failed colony of Roanoke in 1587 to the formation of the Georgia colony in 1733

The Real Story Behind the Thirteen Colonies Christine Honders,2019-07-15 There has always been controversy over the settlement of America American students have been taught that Columbus discovered America yet what he found was neither America nor was it undiscovered In modern times students have vast amounts of information available to them however it is not always obvious which sources are reliable This book explains the establishment of the thirteen colonies through the eyes of the colonists Native Americans African slaves and the British Empire Readers will learn that religious freedom wasn't the only reason colonists flocked to the New World Sidebars with interesting details will help students navigate through the
