

Selecting a Six Sigma Project

Identify Decision Makers

Executives help identify potential projects. Decision makers should include the Six Sigma advisory board members.

Strategic Issues

All Six Sigma projects must have strategic relevance and be linked to the core business issues.

Selection Criteria

Develop additional criteria for judging the project as a Six Sigma project. This includes scope, process issues, measuring outcomes.

Determine the Process

Even after establishing the selection criteria and comparing the potential projects against the criteria, selection of the final projects can be quite subjective.
