Visualizing And Verbalizing For Language Comprehension And Thinking:

Visualizing and Verbalizing for Language Comprehension and Thinking Nanci Bell, 1986 *Imagery and Text* Mark Sadoski, Allan Paivio, 2013 *Imagery and Text* Second Edition extends the first edition's unified theory of cognition in literacy from the perspective of Dual Coding Theory (DCT) one of the most influential and empirically sound theories of cognition ever developed. This theory provides a comprehensive systematic account of all major aspects of literacy including decoding, comprehension, and response in reading and composing in writing. The Second Edition updates DCT as a scientific theory, a cognitive theory, an embodied theory, and a constructivist theory of literacy. New content includes a detailed account of the decoding process and its integral connection to comprehension, a new program of research on DCT in composing text, a review of neuroscientific support, and increased attention to multimedia literacy, socio-cultural influences, and recent educational applications. More than any other theory, DCT explains how both verbal and nonverbal cognition are woven together through all aspects of literacy. Written in concise chapters with illustrative examples, *Imagery and Text* is approachable for both students and advanced scholars in the field of literacy.

Raising Reading Achievement in Middle and High Schools Elaine K. McEwan, 2006-09-26 Strengthen student literacy achievement in middle and high schools. In response to the No Child Left Behind Act (NCLB), raising literacy levels in secondary schools has taken on a new urgency. Recognized literacy author Elaine K. McEwan focuses her revised second edition on enhancing the five big ideas for raising reading achievement with seven cognitive strategies of highly effective readers and more than twenty research-based teaching for learning tips to infuse into daily content instruction. Featuring reflection and discussion questions for reinforcement, this indispensable guide demonstrates how to improve students' literacy with these five teacher-friendly strategies: Focus on changing what you can change; Teach the students who can't read how to read; Teach every student how to read to learn; Motivate all students to read more; to read increasingly more challenging books; and to be accountable for what they read. Create a reading culture in your school. With new programs designed for adolescent learners, this update provides suggestions and developmental tools to effectively strengthen reading curriculum and instruction. Reading specialists, special education teachers, literacy coaches, intervention specialists, and central office administrators can also use this essential tool for evaluating middle and high school reading programs and formulating school and district improvement goals.
