*The Visual in Metaphysical Poetry* Mary Cole Sloane, 1981      *Reading the Visual - 17th Century Poetry and Visual Culture* Robert Kampf, 2010-04 Seminar paper from the year 2008 in the subject English Language and Literature Studies Literature grade 1.0 University of Münster Englishes Seminar language English abstract One ambition of this assignment is to focus on the theory of comparing poetry and painting in terms of practices and synthesis in order to extend this theory to visual culture and its influence on artists and practices in their specific cultural context The ambition is to show in how far an analysis of visual elements in late Renaissance culture contributes to our understanding of the cultural products of that era To introduce the field of work I'd like to present a selection of theories connecting poetry and visual arts Considering the enormous spectrum of visual art I'd like to focus on painting and draw a comparison to poetry The idea is to oppose poetry and painting to find common practices and effects in order to substantiate the theory that both forms of art share common ground The mutual influence the shared vocabulary and language and the similar working methods are of special interest here In transition to late Renaissance visual culture and the work and life of John Donne a short excursus will be necessary to have a closer look at the meaning of visuality for a culture It is essential to our understanding of John Donne's poetry that it is a product of society and culture as well as it is of art Social and cultural currents in Renaissance are equally important for the process of creation as are the experiences of the individual Based on this theoretical background I'd like to establish a connection between the self-portraits John Donne commissioned during his lifetime and the influence of contemporary painters and art collectors The chapter will allow us a deeper insight into Donne's affection for visual arts and image Above that it allows us to go even further and explore the meaning of performance staging and courtly festivals as part of the visual culture      *Poetry and Vision in Early Modern England* Jane Partner, 2018-04-09 This book reveals the ways in which seventeenth century poets used models of vision taken from philosophy theology scientific optics political polemic and the visual arts to scrutinize the nature of individual perceptions and to examine poetry's own relation to truth Drawing on archival research *Poetry and Vision in Early Modern England* brings together an innovative selection of texts and images to construct a new interdisciplinary context for interpreting the poetry of Cavendish Traherne Marvell and Milton Each chapter presents a reappraisal of vision in the work of one of these authors and these case studies also combine to offer a broader consideration of the ways that conceptions of seeing were used in poetry to explore the relations between the inward life of the viewer and the outward reality that lies beyond terms that are shown to have been closely linked through ideas about sight with the emergence of the fundamental modern categories of the subjective and objective This book will be of interest to literary scholars art historians and historians of science      **The Variorum Edition of the Poetry of John Donne, Volume 7, Part 2** John Donne, 2021-01-05 Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared the eighth in the series of *The Variorum Edition of the Poetry of John Donne* presents newly

Arcimboldo Thomas DaCosta Kaufmann,2010-05-15 In Giuseppe Arcimboldo s most famous paintings grapes fish and even the beaks of birds form human hair A pear stands in for a man s chin Citrus fruits sprout from a tree trunk that doubles as a neck All sorts of natural phenomena come together on canvas and panel to assemble the strange heads and faces that constitute one of Renaissance art s most striking oeuvres The first major study in a generation of the artist behind these remarkable paintings Arcimboldo tells the singular story of their creation Drawing on his thirty five year engagement with the artist Thomas DaCosta Kaufmann begins with an overview of Arcimboldo s life and work exploring the artist s early years in sixteenth century Lombardy his grounding in Leonardesque traditions and his tenure as a Habsburg court portraitist in Vienna and Prague Arcimboldo then trains its focus on the celebrated composite heads approaching them as visual jokes with serious underpinnings images that poetically display pictorial wit while conveying an allegorical message In addition to probing the

humanistic literary and philosophical dimensions of these pieces Kaufmann explains that they embody their creator's continuous engagement with nature painting and natural history He reveals in fact that Arcimboldo painted many more nature studies than scholars have realized a finding that significantly deepens current interpretations of the composite heads Demonstrating the previously overlooked importance of these works to natural history and still life painting Arcimboldo finally restores the artist's fantastic visual jokes to their rightful place in the history of both science and art Mechanical Imagery in Spanish Golden Age Poetry Daniel L.
