Zen Keys:

Zen Keys Thich Nhat Hanh, 1994-12-01 Thich Nhat Hanh brings his warmth and clarity to this unique explication of Zen Buddhism Beginning with a discussion of daily life in a Zen monastery Nhat Hanh illustrates the character of Zen as practiced in Vietnam and gives the reader clear explanations of the central elements of Zen practice and philosophy Thorough attention is given to concepts such as Awareness and Impermanence and to contemporary issues such as the conflicts between modern technology and spirituality The final section includes a set of 43 koans from the 13th century Vietnamese master Tran Thai Tong which are translated here for the first time into English Originally published in 1974 Zen Keys has been unavailable for several years but is now reissued by popular demand Readers will find it as fresh today as when it was first written and will be struck by the timelessness of its insights What makes this work particularly compelling is that Nhat Hanh is able to invigorate what in other presentations may seem like empty abstract principles The example he has set in his own life as a relentless advocate for peace brings strength and a realistic understanding to idealistic Buddhist goals In Zen Keys Thich Nhat Hanh presents the philosophy which has enabled him to be mindful of peace in every moment An excellent introduction from Philip Kapleau author of the classic Three Pillars Of Zen provides background on the emerging American Zen tradition

Selflessness: A Key to Wisdom Dr. Pak-Kei Kan, 2018-04-30 Why is Selflessness a way to Wisdom This book is a real story but more than that it is also a book for academic life education purpose It first contains real stories from eleven suicide prevention telephone hotline volunteers of the Samaritan Befrienders Hong Kong SBHK who had been serving for more than 25 years They came from all walks of life such as engineer businessman teacher nurses and housewife There were episodes of unforgettable conversation between volunteers and clients stories of how volunteer managed the situation when a suicide attempt was ongoing at the other end of the phone Based on these stories the author who are also a long serving volunteers of SBHK himself combined with several academic references to explore relationships between empathy selflessness virtues transcendence wisdom and Eudaimonia ultimate happiness which human being should be aware of and to try to understand This book consists of two parts The first part is a series of stories from eleven suicide prevention telephone hotline volunteers of the Samaritan Befrienders Hong Kong SBHK who had been serving for more than 25 years They came from all walks of life such as engineer businessman teacher nurses and housewife There were episodes of unforgettable conversation between volunteers and clients stories of how volunteer managed the situation when a suicide attempt was ongoing at the other end of the phone Volunteers talk about their engagement with different type of clients depressive suicidal manipulative shameful or even thankful clients They also talked about themselves including their childhood some very important personal experiences and their expectations for the future All these stories are in fact data for triangulation among each other to support the research on the attributes of these long serving volunteers The second part is an elaboration of the reason for the longevity of service provided by the

volunteers This is a wisdom related reason which is unknown to most people While volunteers selflessly devote their precious time to serve their clients and regularly exercise empathy they are unconsciously practicing undeliberate and additional selflessness This book provides a lot of literatures with academic references advocating the importance of selflessness for human development There are relationships between empathy selflessness virtues transcendence wisdom and Eudaimonia ultimate happiness which human being should be aware of and to try to understand This book allows interested people to trace along the literature references provided and ultimately pursue happiness The author believes that people understand all these insights would know how to carry on their lives in a fruitful and developmental manor regardless of their age
