*Inventing the New Negro* Daphne Lamothe, 2013-03-01 It is no coincidence Daphne Lamothe writes that so many black writers and intellectuals of the first half of the twentieth century either trained formally as ethnographers or worked as amateur collectors of folklore and folk culture In *Inventing the New Negro* Lamothe explores the process by which key figures such as Zora Neale Hurston Katherine Dunham W E B Du Bois James Weldon Johnson and Sterling Brown adapted

ethnography and folklore in their narratives to create a cohesive collective and modern black identity Lamothe explores how these figures assumed the roles of self reflective translators and explicators of African American and African diasporic cultures to Western largely white audiences Lamothe argues that New Negro writers ultimately shifted the presuppositions of both literary modernism and modernist anthropology by making their narratives as much about ways of understanding as they were about any quest for objective knowledge In critiquing the ethnographic framework within which they worked they confronted the classist racist and cultural biases of the dominant society and challenged their readers to imagine a different set of relations between the powerful and the oppressed Inventing the New Negro combines an intellectual history of one of the most important eras of African American letters with nuanced and original readings of seminal works of literature It will be of interest not only to Harlem Renaissance scholars but to anyone who is interested in the intersections of culture literature folklore and ethnography *Trotter Review* ,2007 *Vodou Nation* Michael Largey,2006-05 While the Haitian musical tradition is probably best known for the Vodou inspired roots music that helped topple the two generation Duvalier dictatorship the nation s troubled history of civil unrest and its tangled relationship with the United States is more intensely experienced through its art music which combines French and German elements of classical music with Haiti s indigenous folk music Vodou Nation examines art music by Haitian and African American composers who were inspired by Haiti s history as a nation created by slave revolt Around the time of the United States s occupation of Haiti in 1915 African American composers began to incorporate Vodou inspired musical idioms to showcase black artistry and protest white oppression Together with Haitian musicians these composers helped create what Michael Largey calls the Vodou Nation an ideal vision of Haiti that championed its African based culture as a bulwark against America s imperialism Highlighting the contributions of many Haitian and African American composers who wrote music that brought rhythms and melodies of the Vodou ceremony to local and international audiences Vodou Nation sheds light on a black cosmopolitan musical tradition that was deeply rooted in Haitian culture and politics *The American Magazine* ,1888 *Sacred Arts of Haitian Vodou* Donald Cosentino,1995 This abundantly illustrated anthology brings together sixteen essays by artists scholars and ritual experts who examine the sacred arts of Haitian Vodou from multiple perspectives Among the many topics covered are the ten major Vodou divinities Vodou s roots in the Fon and Kongo kingdoms of Africa and its transformation in the experiences of slavery and the encounter with European spiritual systems Vodou praxis including its bodily and communal disciplines the cult of St James Major Ogou and the cult of twins In the final section essays by Elizabeth McAlister Patrick Polk Tina Girouard and Randall Morris look at Vodou arts and artists Oleyant and the legacy of ironworker Georges Liautaud The Envoi by Donald J Cosentino is devoted to the Gedes spirits of death and regeneration **In Hiawatha's Country** Charles Burr Todd,1888 *American Illustrated Magazine* ,1888 **Transactions** Tri-State Medical Association of the Carolinas and Virginia,1900 **The Greenwood Encyclopedia of African American Folklore** Anand Prahlad,2006 Contains over seven hundred
