It provides new insights and contributions to the existing literature on business organizations through the dissemination of information as well as empirical pieces of evidence from various parts of the world. The focus of this handbook is on advancing talent management strategies and learning organizations through knowledge sharing on various platforms, geographical locations, and diverse groups of intellectuals having diversified experience, knowledge, and expertise. It also focuses on innovation and creativity based on global competition, advanced communication and management technologies, and on changing customers' behaviors and needs in the post-pandemic era. *The Handbook of Talent Management and Learning Organizations: A Post-Pandemic Perspective* explores theoretical and empirical artifacts and different approaches to enhance the understanding of the relationship between talent management and learning organization. It provides solutions to managers and consultants who are facing problems while managing talent due to workplace changes post-pandemic and shows the connection between innovation and creativity as talent management enhances organizational learning, knowledge sharing, culture, innovation capabilities, and creativity. The handbook also offers strategies and solutions to manage talent virtually and presents future research directions and solutions to contemporary issues related to talent management and learning organizations moving forward. This handbook targets graduate students, research scholars, practitioners, employees, consultants, corporate bodies, and technocrats. It will be very helpful to managers and consultants who are facing problems with managing talent due to workplace changes after the pandemic.

**De Gruyter Handbook of Media Technology and Innovation** Richard A. Gershon, 2025-01-27. *The De Gruyter Handbook of Media Technology and Innovation* brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management, information technology, product design, planning, and digital lifestyle. This handbook is about the power of good ideas. It's about those business enterprises, government planners, educators, and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in. Keeping pace with fast-paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues. A major premise of this book is that given the complex and ever-changing state of media technology, we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation, as well as to appreciate the social impact that such technologies have on business, education, and the general public. Forecasting the future, as any weatherperson or stock broker can tell you, is a risky business. But in this book, we use the phrase "the creative next step" as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward.
