**Counterfactual Thought Experiments in World Politics** Philip E. Tetlock,Aaron Belkin,1996-09-08 Political scientists often ask themselves what might have been if history had unfolded differently if Stalin had been ousted as General Party Secretary or if the United States had not dropped the bomb on Japan Although scholars sometimes scoff at applying hypothetical reasoning to world politics the contributors to this volume including James Fearon Richard Lebow Margaret Levi Bruce Russett and Barry Weingast find such counterfactual conjectures not only useful but necessary for drawing causal inferences from historical data Given the importance of counterfactuals it is perhaps surprising that we lack standards for evaluating them To fill this gap Philip Tetlock and Aaron Belkin propose a set of criteria for distinguishing plausible from implausible counterfactual conjectures across a wide range of applications The contributors to this volume make use of these and other criteria to evaluate counterfactuals that emerge in diverse methodological contexts including comparative case studies game theory and statistical analysis Taken together these essays go a long way toward establishing a more nuanced and rigorous framework for assessing counterfactual arguments about world politics in particular and about the social sciences more broadly Snake Eyes Hillary Monahan,2016-12-01 Tanis Barlas is in no particular order a daughter of Lamia a snake woman a killer and a hunter collecting men to mate with her mother and continue the precious line She hates it like she hates her messed up family and everything that goes with it And now Lamia s favourite daughter has gone missing and
