**EXCERPT** The Aiguilles Rouges chain could have suffered from being so close to its illustrious neighbour the Mont Blanc Massif but in fact the huge variety of routes on offer here means that the two ranges complement each other From easy tours to narrow couloirs from routes with easy access from ski lifts to numerous possible traverses the Aiguilles Rouges is an integral part of the Mont Blanc region Thanks to this ease of access and the great circuits that can be done in this area this is also the starting point for trips heading north to Sixt Flaine and Les Portes du Soleil or to the east and Switzerland to the high limestone Alps via the Col de la Tour Sali re and the Barberine cols not forgetting of course the great routes on the Bel Oiseau the Dent de Fenestral or Fontanabran between Finhaut and Les Mar cottes Moreover this chain of crystalline rock gneiss also offers superb views of the whole of the Mont Blanc Massif which are both breathtakingly beautiful and more importantly are a great opportunity for getting a look at routes for the future The other advantage the Aiguilles Rouges has is that you can easily choose the best side of the chain to ski on as the ski lifts and the pistes are all on the south side and the best descents are to be had on the wild north side where the snow stays in excellent condition for a long time The secondary ranges of the Perrons and Luisin Emaney don t have ski lifts and usually get skied at the beginning of the season for road access to the Emosson Dam as the snow cover is general better here the area is near the very wet valleys of Haut Faucigny
