Theorizing The Standoff Contingency In Action:

Theorizing the Standoff Robin Wagner-Pacifici, 2000-03-28 This book combines original theoretical analysis with real life case studies to examine the nature of the standoff Starting with the standoffs of Wounded Knee MOVE Ruby Ridge Waco Freeman of Montana Tupac Amaru Republic of Texas the author explores the archetypal patterns of human action and cognition that move us into and out of these highly charged situations and seeks to theorize the contingency of all such moments As an emergency situation where interaction is both frozen and continuing the standoff evokes original ideas about time space and appropriate or anticipated action and individuals and organisations often find their standard operating procedures and categories deflected and transformed By tracking and analysing such impositions and deflections this book aims to develop a theory of the fundamental existential indeterminacy of social life and the possible role that improvisation can play in navigating this indeterminacy and preventing a violent and destructive conclusion Co winner of the 2001 Best Book Award given by the Sociology of Culture Section of the American Sociological Association *When All Roads Lead to the Standoff* Jeanne M. Haskin, 2016 Using eye witness accounts to narrate the terrifying failed efforts at communication during the standoffs at Ruby Ridge and in Waco TX Haskin offers a psycho social theory for militant white movements influenced by political economics The heart stopping dialogues as the authorities in both cases make their erroneous calculations are dramatic but so is the idea that such events can furnish essential clues to success for those who are responsible for defusing such conflicts The Ruby Ridge standoff and the Branch Davidian siege were symptoms of a broader battle between the goals of Corporate Governance and the hatred of white supremacists Haskin show that by instilling insecurity the Corporate power makes a mockery of citizens free will Bred by a different set of goals and grievances white supremacists would use and sacrifice anyone whites included to achieve their whites only world What if white supremacists and those who favor Corporate Governance find common ground The worst of both their goals grotesque levels of deprivation debt peonage survival slavery ethnic cleansing and racial and religious violence may be our future **The Violence of Law** Jens Meierhenrich, 2024-05-02 Examines lawfare a little understood form of warfare in post genocide Rwanda where it contributed to the making of dictatorship *Generally Speaking* Eviatar Zerubavel, 2020-10-26 In this invitation to concept driven sociology defying the conventional split between theory and methodology as well as between quantitative and qualitative research Eviatar Zerubavel introduces a yet unarticulated Simmelian method of theorizing specifically designed to reveal fundamental often hidden social patterns Insisting that it can actually be taught he examines the theoretico methodological process revolving around the epistemic and analytical acts of focusing generalizing exempling and analogizing by which concept driven researchers can distill generic social patterns from the culturally historically and domain specific contexts in which they encounter them empirically Disregarding conventionally noted substantive variability in order to uncover conventionally disregarded formal commonalities *Generally Speaking* draws on cross cultural cross

historical cross domain and cross level analogies in an effort to reveal formal parallels across disparate contexts Using numerous examples from culturally and historically diverse contexts and a wide range of social domains while also disregarding scale Zerubavel thus introduces a pronouncedly transcontextual generic sociology The Dubious Case of a Failed Coup Feride Çiçekoğlu, Ömer Turan, 2018-09-18 This volume is an attempt to contextualise the coup attempt of 15 July 2016 in Turkey within the framework of militarism and masculinities The immediate aftermath of the 15 July in Turkey witnessed confusion contestation and negotiation among different narratives until a hegemonic version was superimposed on the collective memory as part of official history building This project is an attempt to bring a fresh and critical perspective by compiling together analyses from various disciplines of political science media and film studies literature sociology and cultural studies Several chapters of this volume delineate the paradox of victorious militarism meaning that despite the failure of the coup its aftermath has been shaped by a new wave of state sponsored gendered militarism with the establishment of a regime of state of emergency *The Punishment of Pirates* Matthew Norton, 2022-12-21 A sociological investigation into maritime state power told through an exploration of how the British Empire policed piracy Early in the seventeenth century boom of seafaring piracy allowed many enterprising and lawless men to make fortunes on the high seas due in no small part to the lack of policing by the British crown But as the British empire grew from being a collection of far flung territories into a consolidated economic and political enterprise dependent on long distance trade pirates increasingly became a destabilizing threat This development is traced by sociologist Matthew Norton in *The Punishment of Pirates* taking the reader on an exciting journey through the shifting legal status of pirates in the seventeenth and eighteenth centuries Norton shows us that eliminating this threat required an institutional shift first identifying and defining piracy and then brutally policing it *The Punishment of Pirates* develops a new framework for understanding the cultural mechanisms involved in dividing classifying and constructing institutional order by tracing the transformation of piracy from a situation of cultivated ambiguity to a criminal category with violently patrolled boundaries ending with its eradication as a systemic threat to trade in the English Empire Replete with gun battles executions jailbreaks and courtroom dramas Norton's book offers insights for social theorists political scientists and historians alike **The Assassination of Theo Van Gogh** Ron Eyerman, 2008-08-28 DIVE explores the motives mass media attention and narrative interpretation of the November 2004 murder of Dutch filmmaker Theo van Gogh div **Warfare in the American Homeland** Joy James, 2007-07-20 DIVA collection of writings by prisoners and scholars that documents the extension of the violence and the repression of the prison establishment into the larger society div **Current Sociology**, 1952 Includes bibliographies *Social Problems*, 1953 **American Sociological Review**, 1936 Includes sections Book reviews and Periodical literature It Was Like a Fever Francesca Polletta, 2006-05 Activists and politicians have long recognized the power of a good story to move people to action In early 1960 four black college students sat down at a whites only lunch counter in Greensboro North Carolina and refused

to leave Within a month sit ins spread to thirty cities in seven states Student participants told stories of impulsive spontaneous action this despite all the planning that had gone into the sit ins It was like a fever they said Francesca Polletta s It Was Like a Fever sets out to account for the power of storytelling in mobilizing political and social movements Drawing on cases ranging from sixteenth century tax revolts to contemporary debates about the future of the World Trade Center site Polletta argues that stories are politically effective not when they have clear moral messages but when they have complex often ambiguous ones The openness of stories to interpretation has allowed disadvantaged groups in particular to gain a hearing for new needs and to forge surprising political alliances But popular beliefs in America about storytelling as a genre have also hurt those challenging the status quo A rich analysis of storytelling in courtrooms newsrooms public forums and the United States Congress It Was Like a Fever offers provocative new insights into the dynamics of culture and contention
