Ronald D., 2012-01-13 THEN AND NOW In 1971 as an undergraduate student at Loyola University of Chicago I often sat on the steps of the Chicago Water Tower during class breaks I watched the traffic flowing north and south along Michigan Avenues bustling Magnificent Mile As a kid who hailed from the housing projects on the west side of Chicago I marveled at the late model cars beautifully tailored pedestrians and the expensive boutiques that lined the street I often wondered How do you get there from here In 1994 I arrived in Bentonville Arkansas to assume my new post as the Senior Vice President of the People Division for Wal Mart Stores Sam Waltons term for human resources Soon to become the worlds largest retailer and private employer a Fortune 1 company and among the Fortune 100 Best Companies To Work For I had experienced an exciting and satisfying journey Today residing on Hilton Head Island South Carolina I enjoy my role as consultant and corporate board member for several public companies Over the years I have shared my thoughts on getting there from here in many places around the world Why not finally put them in a book Good question This book is my answer Enjoy Democracy without Shortcuts Cristina Lafont, 2019-12-12 This book articulates a participatory conception of deliberative democracy that takes the democratic ideal of self government seriously It aims to improve citizens democratic control and vindicate the value of citizens participation against conceptions that threaten to undermine it The book critically analyzes deep pluralist epistocratic and lottocratic conceptions of democracy Their defenders propose various institutional shortcuts to help solve problems of democratic governance such as overcoming disagreements citizens political ignorance or poor quality

deliberation However all these shortcut proposals require citizens to blindly defer to actors over whose decisions they cannot exercise control Implementing such proposals would therefore undermine democracy Moreover it seems naive to assume that a community can reach better outcomes faster if it bypasses the beliefs and attitudes of its citizens Unfortunately there are no shortcuts to make a community better than its members The only road to better outcomes is the long participatory road that is taken when citizens forge a collective will by changing one another s hearts and minds However difficult the process of justifying political decisions to one another may be skipping it cannot get us any closer to the democratic ideal Starting from this conviction the book defends a conception of democracy without shortcuts This conception sheds new light on long standing debates about the proper scope of public reason the role of religion in politics and the democratic legitimacy of judicial review It also proposes new ways to unleash the democratic potential of institutional innovations such as deliberative minipublics
