Miles,1988 **Personal Computer Magazine** ,1990 Cyberpl@y Brenda Danet,2020-05-28 The Internet is changing the way we communicate As a cross between letter writing and conversation email has altered traditional letter writing conventions Websites and chat rooms have made visual aspects of written communication of greater importance arguably than ever before New communication codes continue to evolve with unprecedented speed This book explores playfulness and artfulness in digital writing and communication and answers penetrating questions about this new medium Under what conditions do old letter writing norms continue to be important even in email Digital greetings are changing the way we celebrate special occasions and public holidays but will they take the place of paper postcards and greeting cards The author also looks at how new art forms such as virtual theatre ASCII art and digital folk art on IRC are flourishing and how many people collect and display digital fonts on handsome Websites or even design their own Intended as a time capsule documenting developments online in the mid to late 1990s when the Internet became a mass medium this book treats the computer as an expressive instrument fostering new forms of creativity and popular culture Computers and Typography 2 Rosemary Sassoon,2002 This second Volume of *Computers and Typography* reflects new developments in this rapidlychanging field This book complements without in any way supplanting Volume1 through an extensive elaboration of issues that were considered only briefly the first Volume Its aim is to alert those involved in computer interface design that the skills of layout spacing and usage of type are equally vital in the constuction of onscreen layouts as they are on the printed page *Technical Typography Using Personal Computers* ,1989 Technical typography is fully within the capabilities of the personnel computer Two software packages seemed best able to meet our requirements EXACT and PC TeX This

report describes the installation use capabilities and results of these packages Although both packages produce very good results EXACT is by far the more suitable of the two for technical typesetting by general users This program can answer most publication requirements PC TeX is more appropriate for users involved in publishing technical manuscripts who require the highest quality of technical typography General users willing to expend the necessary time and effort to master PC TeX will find that outstanding results can be obtained Both packages are acceptably fast when outputting to a laser printer but only EXACT's draft mode is acceptable in terms of speed for generating output on a dot matrix printer
