the city's real estate valuations and boomed prices everywhere else. Then distressed properties popped when the federal and state moratoriums on foreclosures and evictions ran their course and the floodgates opened exposing the 1 in 5 renters behind on rent and just over 10 million homeowners behind on mortgage payments. We knew that everyone everywhere would want to get in on the real estate game. Yet simply writing a check is not how it's done unless you plan to go broke. Real estate investing takes a tremendous amount of knowledge and skills. Dumb luck can only get you so far. Unfortunately other books in the marketplace lacked the substance that investors craved and required. So we set out to fill that gap in the marketplace. This book is different. It details everything that an investor needs to know from the time that they say I want to invest to the moment that they close on their purchase. It starts by helping the investor to set their bottom line both emotionally and with hard numbers and it ends by teaching the investor how to craft a business plan so that they can start investing today. In the middle we include countless negotiating skills, legal lessons, and plain English explanations of each key contractual clause that must be negotiated when purchasing real estate. While this book was written for the post-pandemic time period, the skills that it delivers are timeless. Every real estate investor needs to read this book. It will quickly become their ultimate go-to guide and desk reference.
