Spoken and Written Discourse in Online Interactions Maria Grazia Sindoni, 2014-04-24 Winner of the AIA Book Prize for a research monograph in the field of English Language and Linguistics 2016 Common patterns of interactions are altered in the digital world and new patterns of communication have emerged challenging previous notions of what communication actually is in the contemporary age Online configurations of interaction such as video chats blogging and social networking practices demand profound rethinking of the categories of linguistic analysis given the blurring of traditional distinctions between oral and written discourse in digital texts This volume reconsiders underlying linguistic and semiotic frameworks of analysis of spoken and written discourse in the light of the new paradigms of online communication in keeping with a multimodal corpus linguistics theoretical framework Typical modes of online interaction encompass speech writing gesture movement gaze and social distance This is nothing new but here Sindoni asserts that all these modes are integrated in unprecedented ways enacting new interactional patterns and new systems of interpretation among web users These non verbal modes have been sidelined by mainstream linguistics whereas accounting for the complexity of new genres and making sense of their educational impact is high on this volume's agenda Sindoni analyzes other new phenomena ranging from the intimate sphere i.e. video chats personal blogs or journals on social networking websites to the public arena i.e. global scale transmission of information and knowledge in public blogs or media sharing communities shedding light on the rapidly changing global web scenario

The Pictorial Third Liliane Louvel, 2018-05-23 The Pictorial Third An Essay into Intermedial Criticism examines the extent to which poetry intertwines with painting and the visual at large and studies the singular relationship established between language and image observing the modalities and workings of what is termed intermedial transposition By following a critical method of the close analysis of texts the book examines to what extent the

pictorial tool may be of help to analyze literary texts and thus enlarge and enrich literary criticism Examining the technical notions typical of the medium and its history including perspective framing colour anamorphosis trompe l'il Veronica veil still life portrait figure illusion apparatus genres and styles this volume presents a pragmatics of image in text and of the visual in text as an operative tool This pictorial reading necessarily includes synesthesia and the senses it also functions as a reading event or what happens to one when one unawares encounters a picture be it present in the book or the object of an ekphrasis Thus the body is eventually given back a role to play The sensitive approach has its own resonances and the eye or the gaze sometimes sees double in such intermedially oriented texts This volume proposes to identify the pictorial third as the phenomenon which can be apprehended in terms of effect or affect not only as a concept

Silence and Articulacy in the Poetry of Medbh McGuckian Maureen E. Ruprecht Fadem, 2019-12-03 Silence and Articulacy in the Poetry of Medbh McGuckian is an innovative contribution to the scholarship on Belfast poet Medbh McGuckian This book considers the entire oeuvre of this globally respected Irish woman writer a member of the contemporary avant garde with now fifteen U S published volumes and numerous individual publications The author positions McGuckian s oeuvre as political and historical poetry and offers a provocative new assessment of its crafted silences This work argues that it is the muted character of McGuckian s poems a consequence of a defamiliarized language the overwhelming sway of the image and a profusion of intertextual quoting that constitutes their agency and force The silences are read as a response to the precarious positionality of poet and speaker at the site of disaster and the limits of articulacy In line with Rukeyser s notion of the life of poetry the life of McGuckian s silences is located Fadem argues in the poems production as revealed self reflexively and in their prolonged consumption This oeuvre operates as a formidable counter discourse by converting poetry s reception into a much protracted task that redistributes the temporal economy of poem and reader and disrupts the given structures of time place and the order of things
