People, Care and Work in the Home Mohamed Gamal Abdelmonem,Antonio Argandoña,2020-05-18 Introducing novel theoretical empirical and practical investigations with case studies from UK Europe South America and South East Asia the book offers a novel global outlook on how contemporary homes are facing genuine challenges from operational economic spatial social and wellbeing perspectives The changing demographics of our modern society have inevitably impacted the dynamics and relationships within the home from being personal and private to that of multiple work relationships domestic work care for older people or supporting people with special needs Whilst the home is a concept universally experienced permeating every aspect of our lives it remains an entity whose influence on health and wellbeing is poorly understood This book brings together 17 different contributions from scholars researchers and practitioners from different disciplinary and professional backgrounds including three feature articles by leading figures such as Lord Best and Baroness Hollins The chapters are organised within three parts that look at the triangle of people work care in the home At a time when homes are increasingly becoming local hubs for care and wellbeing this volume is a critical and useful addition to current literature in the social sciences humanities economics culture care and wellbeing in the domestic sphere *Law and the Quest for Gender Equality* Margaret Thornton,2023-04-27 For centuries law was used to subordinate women and exclude them from the public sphere so it cannot be expected to become a source of equality instantaneously or without resistance from benchmark men that is those who are white heterosexual able bodied and middle class Equality furthermore was attainable only in the public sphere whereas the private sphere was marked as a site of inequality a wife children and servants could

never be the equals of the master Despite their ambivalence about the role of law and its contradictions women and Others felt that they had no alternative but to look to it as a means of liberation This skewed patriarchal heritage the subtext of this collection of essays has continued to impede the quest for equality by women and Others It informs not only gender relations in the private sphere as illustrated by domestic violence and sexual assault but also the status of women in the public sphere Despite the fact that women have entered the paid workforce including the professions in large numbers they are still expected to assume responsibility for the preponderance of society's caring The essays show how maternal and caring roles which are still largely viewed as belonging to an unregulated private sphere continue to be invoked to detract from the authority of the feminine in the public sphere The promise of antidiscrimination legislation in overcoming the heritage of the past is also shown to be somewhat hollow

Labor Relations John W. Budd, 2005 *Labor Relations Striking a Balance* 1st Edition by John Budd presents labor relations as a system for striking a balance between the employment relationship goals of efficiency equity and voice and between the rights of labor and management Budd's *Labor Relations* broadens the narrow process focus of existing labor relations texts by placing the discussion of contemporary U S processes into the context of underlying themes what are the goals of labor relations are those goals being fulfilled and are reforms needed This textbook replaces the tired paradigm of labor relations equals detailed work rules with the dynamic paradigm of labor relations equals balancing
