

The Harvard Business School Center for Digital Learning has developed the questions below for employers

The 5x questions checklist for an effective hybrid workplace model

01 What do people want?

As mentioned above, a successful hybrid work strategy and hybrid workplace model can only work if it's designed for the people.

Before making any significant decisions or investments, it's important to understand the preferences, needs, and expectations of the employees you want to attract, retain, and engage. And what will they want to do?

The way to build a hybrid work model is to first ask what people want for themselves, and then to build a model that addresses those needs.

How do you know? There are several ways to find out what your employees want. You can conduct surveys, focus groups, and interviews. You can also look at industry trends and best practices. The key is to listen to your employees and to be open to their feedback.
