Translating Neruda John Felstiner, 1980 What goes into the translating of a poem Usually that process gets forgotten once the new poem stands intact in translation Yet a verse translation derives from historical biographical and philosophical research interpretive analysis of the original poem and continuous linguistic and prosodic choices that parallel those the poet made Taking as a text Pablo Neruda's brilliant prophetic sequence *Alturas de Macchu Picchu* 1945 the author here re-creates the entire process of translation from his first encounter with the poem to the last shaping of a phrase that may never come right in English This many faceted book forms an essay on the theory and practice of literary translation a study of Neruda's career through 1945 and an interpretation of his major poem all of which lead to a striking new poem in English *Heights of Macchu Picchu* printed along with the original Spanish This genesis of a verse translation also includes little known biographical data hitherto untranslated poems and prose from the years 1920 to 1945 and new translations of key poems from Neruda's *Residence on Earth* and *Spain in My Heart*
