Sue Ellen:

The Feminist Spectator as Critic Jill Dolan, 2012-10-24 The Feminist Spectator as Critic broke new ground as one of the pioneering books on feminist spectatorship encouraging resistant readings to generate feminist meanings in performance. Approaching live spectatorship through a range of interdisciplinary methods, the book has been foundational in theater studies, performance studies, and gender sexuality women's studies. This updated and enlarged second edition celebrates the book's twenty-fifth anniversary with a substantial new introduction and up-to-the-moment bibliography detailing the progress to date in gender equity in theater and the arts and suggesting how far we have yet to go.

Fitter for Life Ed Mayhew, 2005-07 Discover the Secrets of the Masters of Fitness. How a 54-year-old man who struggled to jog a single quarter mile got in good enough shape and summoned the energy to run 109 miles at the 24Hour Endurance Run National Championships at age 77. How a 40-year-old full-time working mother with four young children made time to train as a 2-sport national champion all the while keeping her family priority one. How a lifelong heavy smoker and self-proclaimed couch potato in her forties transformed herself into an Ironman triathlete in her fifties. How a 59-year-old man, just four and a half months removed from a near-fatal heart attack and double bypass surgery, was able to complete one of the most grueling races ever run. How a 64-year-old with a cholesterol reading of 385dl mg, arrhythmia, an irregular heart beat, and no background in competitive swimming was able to turn herself into a World Champion age group swimmer. How a woman crippled by arthritis was able to beat the disease without resorting to drugs. Why most weight loss and exercise programs fail and how the Masters of Fitness avoided this common pitfall and how you can too. Which foods, drinks, supplements, and herbs played the greatest role in the amazing athletic feats of the Masters of Fitness. Think these thoughts and you will age slower, but think THESE thoughts and you'll age faster. How the Masters of Fitness get their bodies to release more youth-enhancing Human Growth Hormone (HGH) naturally and how you can too.

[Designing Reliable Distributed Systems](#) Peter Csaba Ölveczky, 2018-02-12 This classroom-tested textbook provides an accessible introduction to the design, formal modeling, and analysis of distributed computer systems. The book uses Maude, a rewriting logic-based language and simulation and model checking tool, which offers a simple and intuitive modeling formalism that is suitable for modeling distributed systems in an attractive object-oriented and functional programming style. Topics and features: introduces classical algebraic specification and term rewriting theory, including reasoning about termination, confluence, and equational properties; covers object-oriented modeling of distributed systems using rewriting logic as well as temporal logic to specify requirements that a system should satisfy; provides a range of examples and case studies from different domains to help the reader to develop an intuitive understanding of distributed systems and their design challenges; examples include classic

distributed systems such as transport protocols cryptographic protocols and distributed transactions leader election and mutual execution algorithms contains a wealth of exercises including larger exercises suitable for course projects and supplies executable code and supplementary material at an associated website This self contained textbook is designed to support undergraduate courses on formal methods and distributed systems and will prove invaluable to any student seeking a reader friendly introduction to formal specification logics and inference systems and automated model checking techniques
