## **Theory Text And Context:**

Interrogating Post-colonialism Harish Trivedi, Meenakshi Mukherjee, 1996 Selected essays from an international conference organized by the Indian Association for Commonwealth Literature and Language Studies in collaboration with and at the Indian Institute of Advanced Study Simla from 3 to 5 Oct 1994 **Text, Context and the Johannine**

**Community** David A. Lamb, 2014-04-24 Text Context and the Johannine Community adopts a new approach to the social context of the Johannine writings by drawing on modern sociolinguistic theory Sociolinguistics emphasizes language as a social phenomenon which can be analysed with reference not only to its broad context of culture but also through the use of register analysis to its narrower context of situation The Johannine writings have increasingly been seen as the product of a distinct Johannine Community depicted by some scholars as a sectarian group opposed both to wider Jewish society and to other Christian groups This model has largely been constructed on historical critical grounds yet given our lack of reliable external information about the origin of the Johannine writings a more fruitful approach may be to examine their lexico grammatical and discourse features to determine what these imply about interpersonal relationships This study compares selected narrative asides from the Gospel of John with a passage section from 1 John and with the two shorter Johannine Epistles It concludes that register analysis of these texts does not support the idea of a close knit sectarian group

*Evolution and Revolution in Theories of Legal Reasoning* Scott Brewer, 1998 Text, Context and Construction of Identity Rajesh Kumar, Om Prakash, 2019-04-30 Language is central to our existence and it happens to be the most sophisticated product of the human mind It is inconceivable to think of ourselves our societies our ideas cultures or identities without language It is the primary means of socialization and whatever we know is a result of it It is the primary medium of construction and dissemination of knowledge and structures our thought processes in important ways that constitute our identity In very complex ways it interacts with the social political and economic power structures that remain significant in defining the identities of individuals and societies The essays in this volume create an awareness and understanding about the role of linguistic context in negotiating identity The book explains identity and the complex relations between language and several aspects of our society It explores identity through text and context and will serve to trigger a novel discourse around the centrality of identity in contemporary society

Language, Context, and Text Michael Alexander Kirkwood Halliday,Ruqaiya Hasan,1991 This book reflects the view that the understanding of language lies in the study of texts and that the context is vital to the development and interpretation of the text itself The approach to language is a functional one in which the different registers of a language are explained through contexts of situation The analysis of texts reveals how each text is unique while the way the text is organized relates closely to the place and value that it has in its social and cultural environment Accessibility and Acceptability in Technical Manuals Inger Lassen,2003 Accessibility and Acceptability in Technical Manuals is written for an audience with a general interest in readability studies linguistics and technical writing With the main emphasis on technical manuals the book is primarily targeted at those who have a special interest in the design and use of utility texts and how these texts are received and understood by a multifaceted audience Accessibility is not a new research area and many explanations have been offered over the past years as to why non experts often have difficulties in comprehending texts written by technological experts This book offers a new approach to accessibility studies by exploring not only style but also attitudes to style by asking text consumers which style they prefer for different parts of the manual A key role is played by the Systemic Functional Linguistics notion of grammatical metaphor a stylistic choice that is commonly used in technical literature Grammatical

metaphor although apparently obstructing the comprehension process of some readers is a common element in the preferred style that separates the insiders from the outsiders An explanation of this rather surprising result is offered by resorting to Critical Discourse Analysis **Kunapipi** ,1979 **Text** ,1993 TEXT is a forum for interdisciplinary research on all aspects of discourse e g the situational and historical nature of text production the cognitive and sociocultural processes of language practice participant based structures of negotiation and linguistic selection It aims to challenge through critique and debate the tenets of discourse research across disciplinary boundaries both in terms of theoretical output and practical outcomes to encourage dissemination of scholarly work in under represented domains e g communication science artificial intelligence forensic linguistics rhetoric and composition stylistics narratives institutional ethnography sociology of science to remain independent of any individual or group ideology while encouraging in equal measure the use of discourse to challenge discourse orthodoxy **The Novels of Peter Abrahams and the Rise of Nationalism in Africa** Robert Ensor,1992
