Ultimate Bushisms:

The Ultimate Bushisms George Walker Bush, Jacob Weisberg, 2004 Will the highways on the Internet become more few I m the master of low expectations I think we agree the past is over We laugh at every gaffe and malapropism But when Jacob Weisberg set out to create a magnum opus summarising America s forty third president s first term he realised that there was more at stake than mere humour Combining new and selected Bushisms with hilarious fact checking of Bush s accurate statements and organising them according to Bush s own thinking THE ULTIMATE BUSHISMS combines the hilarity of the previous collections with the bite of Michael Moore Love him or hate him it is impossible not to laugh at him and it is impossible not to buy and read this irresistible book

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by

their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

The Ultimate George W. Bushisms Jacob Weisberg,2007-11-06 This business about graceful exit just simply has no realism to it at all As the end of the Bush era approaches the legacy is clear George W Bush is a wartime president His enemy battered but not defeated after repeated surges the English language The ultimate edition of George W Bushisms captures this legacy from the Gulf Coast to Iraq and back with all new pearls of wisdom and the twenty five greatest hits of the entire presidency You know when I campaigned here in 2000 I said I want to be a war president No president wants to be a war president but I am one I think tide turning see as I remember I was raised in the desert but tides kind of it s easy to see a tide turn did I say those words

Couplets Brian Massumi,2021-08-09 In Couplets Brian Massumi presents twenty four essays that represent the full spectrum of his work during the past thirty years Conceived as a companion volume to Parables for the Virtual Couplets addresses the key concepts of Parables from different angles and contextualizes them allowing their stakes to be more fully felt Rather than organizing the essays chronologically or by topic Massumi pairs them into couplets to encourage readers to make connections across conventional subject matter categories to encounter disjunctions and to link different phases in the evolution of his work In his analyses of topics ranging from art affect and architecture to media theory political theory and the philosophy of experience Massumi charts a field on which a family of conceptual problems plays out in ways that bear on the potentials for acting and perceiving the world As an essential guide to Massumi s oeuvre Couplets is both a primer for his new readers and a supplemental resource for those already engaged with his thought

Bushisms Jonathan Bines,Andrew Sullivan,Jacob Weisberg,1992 Gathers awkward inappropriate and confusing statements made by President Bush and discusses what they reveal about his thought processes and political ideals

Truth in the Age of Bushism - Second Edition , *Bush* Jean Edward Smith,2017-07-18 A biography of George W Bush showing how he ignored his advisors to make key decisions himself most in invading Iraq and how these decisions were often driven by the President s deep religious faith

Modern Political Caricatures Jody C Baumgartner,2024-12-01 Political humor has an extensive record in the United States replete with examples of humorists and satirists lampooning political leaders institutions ideas and more Dating back to at least before the beginning of the republic satirists often ridiculed often

ridiculed British leaders and policies as well colonial leaders Thomas Nast's cartoons about Boss Tweed are credited with helping bring down the infamous Tammany Ring Mark Twain never tired of making jokes about Congress and its members And contemporary late night talk show hosts of regularly lampoon political figures This book examines humorous depictions of political leaders in the television era The book is divided into two parts the first focusing on presidents the second on vice presidents presidential and vice presidential candidates The book highlights the comedic and satirical characterizations of these political leaders presented on Saturday Night Live various late night talk shows other television programs e.g. the HBO series Veep The Onion YouTube videos editorial cartoons and more Both humorous and informative this book allows readers to learn more about the leaders examined within and how they acquired their popular reputations and how their careers were impacted It also sheds light on how political humor both political comedy and political satire function in the modern era

Days of Fire Peter Baker, 2013-10-22 In *Days of Fire* Peter Baker Chief White House Correspondent for The New York Times takes us on a gripping and intimate journey through the eight years of the Bush and Cheney administration in a tour de force narrative of a dramatic and controversial presidency Theirs was the most captivating American political partnership since Richard Nixon and Henry Kissinger a bold and untested president and his seasoned relentless vice president Confronted by one crisis after another they struggled to protect the country remake the world and define their own relationship along the way In *Days of Fire* Peter Baker chronicles the history of the most consequential presidency in modern times through the prism of its two most compelling characters capturing the elusive and shifting alliance of George Walker Bush and Richard Bruce Cheney as no historian has done before He brings to life with in the room immediacy all the drama of an era marked by devastating terror attacks the Iraq War Hurricane Katrina and financial collapse The real story of Bush and Cheney is a far more fascinating tale than the familiar suspicion that Cheney was the power behind the throne Drawing on hundreds of interviews with key players and thousands of pages of never released notes memos and other internal documents Baker paints a riveting portrait of a partnership that evolved dramatically over time from the early days when Bush leaned on Cheney making him the most influential vice president in history to their final hours when the two had grown so far apart they were clashing in the West Wing Together and separately they were tested as no other president and vice president have been first on a bright September morning an unforgettable day of fire just months into the presidency and on countless days of fire over the course of eight tumultuous years *Days of Fire* is a monumental and definitive work that will rank with the best of presidential histories As absorbing as a thriller it is eye opening and essential reading

The Ecologist, 1979

Divided We Stand Roger Simon, 2001 Just before Election Day 2000 Al Gore figured the presidential race was his to win or lose In the end he did both How did this happen Bestselling author Roger Simon provides the first complete look at America's most bizarre and most explosive presidential campaign not just the final thirty six days but the two year three way battle between George W Bush Al Gore and yes Bill Clinton to see who would dominate American politics

Simon reveals how the two candidates struggled to contend with the long shadow cast by Bill Clinton and the endless psychodrama of his presidency Both studied Clinton s precision use of politics and his beguiling employment of stagecraft avoiding hot button issues and trying to become as Clinton had been First Friend to the nation However while Al Gore viewed the presidential race as a job interview George Bush viewed it as a date Divided We Stand is a book that makes news Simon provides never before revealed details of the rift between Clinton and Gore including Gore s secret plans if he had replaced Clinton during the Monica Lewinsky scandal of 1998 Simon also reveals how Clinton tried and failed to pick Gore s running mate in 2000 and offers new details of how Joe Lieberman snared the spot on the ticket Simon further exposes new and shocking details about how the dirtiest politics of the 2000 race the deplorable smear campaign in South Carolina kicked off a campaign of open warfare between John McCain and George W Bush Readers will also learn How Ralph Nader affected the outcome of the race and how he feels today about his role How Al Gore lost his home state and why George Bush did so poorly with African American voters even after wooing them so hard How Republican Congressional staff members were so angry about union and black turnout for Al Gore and other Democrats that they held a secret meeting after the election to study ways of depressing black and labor voter turnout in the future Why the race was so close and what it means for the future of America Why for better or worse Bill Clinton continues to dominate our political landscape Divided We Stand is the story not just of a campaign but of a country Simon s account will make you ask yourself what you might have done differently had you known what lurked in the corners you could not see Gore turns from the car and heads quickly down the passageway a Secret Service agent preceding him Sir David Morehouse his trip director says trying to match him stride for stride we need to go to hold Gore gives him a look that could toast bread I m not going to hold he says He picks up his pace Morehouse has been having trouble with a stiff knee and now he is hobbling after the vice president Sir we need to go to hold Morehouse says praying the vice president does not ask him why In point of fact Morehouse does not know why He just knows that moments ago his cell phone rang with a frantic call saying that the vice president should not could not must not go out to the plaza and concede defeat Over his shoulder Gore now explains to Morehouse why there will be no delay I just talked to the governor Gore says He already conceded to Bush in a telephone call a few minutes ago back at the hotel He s waiting on me and I m going straight to the stage Gore says With Gore now almost at the bottom of the steps and Morehouse running out of any option he can think of he limps quickly in front of Gore and blocks his way Just blocks it Just like that Morehouse is six foot one and solidly built and now he is blocking the path of the vice president of the United States Gore is six foot two and a weightlifter but if it is still possible to have something beneath your dignity after running for president for eighteen months then wrestling one of your own aides to the ground is beneath his dignity Gore stops short and glares at Morehouse Both of them can now hear the crowd noise from the plaza The words tumble from Morehouse s lips He isn t even sure what he is saying but it goes Sir you need to get to the hold for five minutes Daley has to talk to you It s going to be fine it s going to be

fine from *Divided We Stand* **The Origin of Minds** Peggy La Cerra, Roger Bingham, 2002 The central message of *The Origin of Minds* is Change the inputs to the systems that create your identity and you can change your life Peggy La Cerra and Roger Bingham offer the first scientific model that explains clearly and evocatively the evolutionary and neurobiological mechanisms that guide the molding of an individual mind **Film Review** ,2006-10 *The DVD-laser Disc Newsletter* ,2004 The Publishers Weekly ,2008 *Mainstream* ,2003 *Border/lines* ,1994 Internationale Politik ,2005
