online calculation model of rolling force for cold rolling mill - Nov 12 2022

jul 19 2012 abstract based on comprehensive consideration of elastic and plastic deformation of both strip and work roll an online rolling force model for tandem cold rolling mill has been developed by numerical integration method in this paper methodology for calculation of rolling load and forces acting - Aug 09 2022

in this paper we have suggested the methodology for calculation of forces acting on the gear by using theory of hot rolling in this paper the analysis process is define by comparing the power and torque available at the input and the total power and torque required for hot rolling process

**calculating power parameters of rolling mill based on model** - Aug 21 2023

the authors assess the feasibility of using the known formulas and analyse the impact of the front and rear tensions on the power parameters of rolling mill the problem of developing an automatic tension control system for continuous mills with multi roll groove is substantiated
