Verificationist A Novel:

The Verificationist Donald Antrim, 2011-11-22 With a New Introduction by George Saunders A New York Times Book Review Notable Book of the Year It is early spring and Tom has called together his fellow psychologists at the Krakower Institute for their biannual pancake supper a chance for likeminded analysts to talk shop and casually unburden themselves over flapjacks But as Tom knows at least subconsciously his brainy colleagues are a little on edge simmering with romantic tension and professional grievance their stew of conflicting ego and id just might boil to the surface before the pretty waitress brings their next coffee refill When Tom tries to provoke a food fight a rival colleague locks him in a therapeutic hold triggering a transcendent if totally bizarre transformation that will free Tom to confront his greatest pleasures and fears Darkly funny and beautifully written *The Verificationist* confirms Donald Antrim as one of America's best and most original authors

Verificationism C.J. Misak, 2005-08-04 Verificationism is the first comprehensive history of a concept that dominated philosophy and scientific methodology between the 1930s and the 1960s The verificationist principle the concept that a belief with no connection to experience is spurious is the most sophisticated version of empiricism More flexible ideas of verification are now being rehabilitated by a number of philosophers C J Misak surveys the precursors the main proponents and the rehabilitators Unlike traditional studies she follows verificationist theory beyond the demise of positivism to examine its reappearance in the work of modern philosophers Most interestingly she argues that despite feminism's strenuous opposition to positivism verificationist thought is at the heart of much of contemporary feminist philosophy *Verificationism* is an excellent assessment of a major and influential system of thought *Wittgenstein's Novels* Martin Klebes, 2006 In this book Martin Klebes investigates the impact of Ludwig Wittgenstein's philosophical work on four contemporary German and French novelists Literary references both to Wittgenstein as a person as well as to his work are much more pervasive than to other equally well known 20th century philosophers and this study seeks to explain why and to what end Individual chapters are devoted to an analysis of the role of writing in Wittgenstein's writings as well as to the literary work of Thomas Bernhard W G Sebald Jacques Roubaud and Ernst Wilhelm Handler Klebes readings are situated in an interdisciplinary space between philosophical analysis and literary criticism and as such also incorporate reflections on conceptual questions in aesthetics architectural history philosophy of science and photography

Realism and Explanatory Priority J. Wright, 2013-06-29 One of the central areas of concern in late twentieth century philosophy is the debate between Realism and anti-Realism But the precise nature of the issues that form the focus of the debate remains controversial In Realism and Explanatory Priority a new way of viewing the debate is developed The primary focus is not on the notions of existence truth or reference but rather on independence A notion of independence is developed using concepts derived from the theory of explanation It is argued that this approach enables us to clarify the exact nature of the empirical evidence that would be required to establish Realism in any area The author defends a restricted form of Realism which he calls Nomic Structuralism The book will be suitable for professional philosophers of language science and metaphysics and their graduate students
