**The Shape of Change**, 2021-11-01 In *The Shape of Change* Anne L Birberick and Russell Ganim bring together essays by fourteen established scholars who dedicate their studies to David Rubin as they explore the ways in which artistic endeavor shapes and is shaped by literary memory The volume is divided into two sections The first section Continuity and Discontinuity offers essays by Jody Enders Timothy Reiss Twyla Meding Marie Odile Sweetser Robert Corum Jr and the editors themselves and considers the ways in which seventeenth century authors draw upon generic conventions or diverse artistic media to create works that reflect the aesthetic and moral values of their time The second section entitled La Fontaine focuses primarily on Jean de La Fontaine's masterpiece Les Fables Here the problem of imitation and innovation as it relates to genre influence and literary reputation is examined in essays by Jules Brody Richard Danner Judd Hubert Catherine Gris Michael Vincent Nicholas Cronk and Ralph Albanese Jr *The Shape of Change* serves as a fine scholarly contribution to the studies of French seventeenth century literature and La Fontaine The essays are thoughtful as well as thought provoking and the volume's critical diversity is nicely balanced by its thematic coherence In its ability to stimulate new thinking this collection of essays will be of interest to both students and scholars of early modern France

**Teaching Through the Ill Body** Marla Morris, 2008-01-01 This book raises questions around pedagogy and illness Morris explores two large issues that run through the text What does the ill body teach What does the teacher do through the ill body The body has something to teach while teaching through the ill body This book is theoretically framed by connections between spirituality and aesthetics As the great spiritual traditions teach our responsibility as teachers is to help others especially those who are marginalized What is lacking in our educational discourse is a discussion of the responsibility we all have to help those who get sick and not marginalize them More specifically pedagogical and curricular questions are fleshed out through working in the area of curriculum studies depth psychology and the medical humanities These three disciplines have something in common autobiography But in the field of curriculum studies autobiographies pathographies of sickness are few and far between This book is meant to fill that gap in the educational literature This pathography is a study that explores the mysteries of suffering storytelling memory and poesis Compassion woundedness vulnerability testimony and authenticity are all issues Morris raises here Teachers scholars depth psychologists and medical educators might be particularly interested in

this intensely felt narrative about what it is like for teachers to teach while suffering from chronic illness     Psyche's Palace: How the Brain Generates the Light of the Soul David Aaron Holmes,2007-09-08 This pioneering theoretical model of consciousness deftly bridges the chasm between science and spirituality with a bridge of literal and figurative Light Conventional wisdom in neurobiology holds that the brain is nothing more than a complex biocomputer whose neurons sole purpose is to process and transmit information Psyche s Palace proposes a new theory that the brain creates this brilliant sound and light show directly upon the convoluted surfaces of the cerebral cortex A filigree of sparkling pixels suspended in the crystal clear fluid of the cerebral cortex forms the live and luminous theater in which the external world is continuously recreated Everything you see and hear and feel must be sculpted directly from the bioluminescence of vast oscillating networks of neurons The brain is simply the material substrate that holds the exuberance in place What if it actually is true what the wise have always said that YOU ARE the pure Light of consciousness that shines within     **Carl Gustav Jung** Frank McLynn,1997 Thirty five years after his death Carl Jung is remembered not only for his valuable contributions to psychotherapy and to our understanding of the inner workings of the mind but also for the enduring controversies he sparked McLynn s biography of this great Swiss thinker examines Jung s early career as an admirer and protege of Sigmund Freud and the discoveries that made Jung s presence increasingly accepted in modern thought     **Jungian Literary Criticism** Susan Rowland,2018-10-04 In Jungian Literary Criticism the essential guide Susan Rowland demonstrates how ideas such as archetypes the anima and animus the unconscious and synchronicity can be applied to the analysis of literature Jung s emphasis on creativity was central to his own work and here Rowland illustrates how his concepts can be applied to novels poetry myth and epic allowing a reader to see their personal psychological and historical contribution This multidisciplinary and transdisciplinary approach challenges the notion that Jungian ideas cannot be applied to literary studies exploring Jungian themes in canonical texts by authors including Shakespeare Jane Austen and W B Yeats as well as works by twenty first century writers such as in digital literary art Rowland argues that Jung s works encapsulate realities beyond narrow definitions of what a single academic discipline ought to do and through using case studies alongside Jung s work she demonstrates how both disciplines find a home in one another Interweaving Jungian analysis with literature Jungian Literary Criticism explores concepts from the shadow to contemporary issues of ecocriticism and climate change in relation to literary works and emphasises the importance of a reciprocal relationship Each chapter concludes with key definitions themes and further reading and the book encourages the reader to examine how worldviews change when disciplines combine The accessible approach of Jungian Literary Criticism the essential guide will appeal to academics and students of literary studies Jungian and post Jungian studies literary theory environmental humanities and ecocentrism It will also be of interest to Jungian analysts and therapists in training and in practice     Psyche's Lamp Robert Briffault,1921     **The Archetypal Artist** Mary Antonia Wood,2022-03-24 In this thoughtful and revelatory book Wood explores enduring and

powerful theories on art creativity and what Jung called the creative spirit in order to illuminate how artists can truly understand what it means to be a creator By bringing together insights on creativity from some of depth psychology's most iconic thinkers such as C G Jung James Hillman and Joseph Campbell as well as featuring a selection of creators who have been influenced by these ideas such as Martha Graham Mary Oliver Stanley Kunitz and Ursula K Le Guin this book explores archetypal thought and the role of the artist in society This unique approach emphasizes the foundational need to understand and work with the unconscious forces that underpin a creative calling deepening our understanding of the transformational power of creativity and the vital role of the artist in the modern world Acting as a touchstone for inquiries into the nature of creativity and of the soul this enlightening book is perfect for artists and creators of all types as well as Jungian analysts and therapists and academics interested in the arts humanities and depth psychology

Lewis and Christian Postmodernism Kyoko Yuasa,2016-04-19 Employing a postmodernist literary approach this book identifies C S Lewis both as an antimodernist and as a Christian postmodernist who tells the story of the gospel to twentieth and twenty first century readers Lewis is popularly known as an able Christian apologetic writer talented in explaining Christian beliefs in simple logical terms But his fictional works feature expressions that erect ambiguous borders between nonfiction and fiction an approach equivalent to those typical in postmodernist literature Whereas postmodernist literature is full of many small micronarratives that deconstruct the Great Story Lewis's fictional world is the reverse of this in his world multiple and small stories are chosen but they also ultimately express the Story that transcends human understanding Lewis's approach reflects both his opposition to modernist philosophy which embraces solidified interpretation and his criticism of modernized Christianity Lewis's fictional works focus on the history of interpretation and deconstructing interpretations of the previous age seek a new model for interpretation Both C S Lewis and postmodern writers force us to choose between alternative interpretations
