*Dogopedia* Justine Hankins,2015-10-08 DOGOPEDIA is a crucial compendium that educates and entertains with facts about everything from wolf ancestry and dog physiology to canine reindeer herders and magicians It explains how dogs train their owners and debunks the many myths about our four legged friends such as the belief that they see in black and white while investigating the mysteries of canine psychology what does that guilty face really mean and how come dogs seem to know when we re coming home This wonderful collection of canine curiosities also explores the place of dogs in the human imagination from cartoons and literary characters to ghosts and dog headed saints The clever dogs the cute dogs the bizarre dogs and the devoted hard working dogs are all put under scrutiny giving us even more reasons to utterly adore our canine companions Drawing on the vast body of knowledge belonging to the world s most famous dogs and cats home DOGOPEDIA is the ideal present for every dog lover     *EXPERIMENTS UPON LIVING DOGS* ,1926     *Dogdom* ,1911     Wordly Wise James McDonald,1984     **Canine Cranial** Bryan D. Cummins,Kaelyn Racine,2025-03-27 With the establishment of national kennel clubs conformation dog shows and pedigrees that only register purebred dogs the majority of these breeds have only been developed in the last 165 years Today s dog comes in a seemingly infinite range of sizes shapes coats and colors This diversity is the product of selective breeding that in turn is primarily in the hands of breeders and judges Perhaps nowhere is the diversity of the dog more evident than in the skull which in contrast to wild canids is too often misshapen and deformed With selective breeding to arbitrary standards of canine beauty comes myriad health concerns including shortened life expectancy in many cases We have literally shaped and continue to alter the domestic dog but we must ultimately ask two questions for what purpose and at what cost to our best friend     *Journal ...* Anthropological Society of Bombay,1903

knew something about the pain they spoke of venerated them as saints Centuries ago many of these voices offered a shock to his or her contemporaries jarring them from the complacency that makes automatons of human beings Other voices contained a paradoxical twist on the religious life or practice of the times yet were soaked with an age old wisdom that is still vital to spiritual practitioners today The translator and editor Vraje Abramian advises readers that these secret sages often had to protect themselves from the powers that be in their society and therefore cloaked their messages in words that only disciples and initiates or those with a vulnerable mind and open heart could actually decipher He further reminds us that the language adopted by Sufi teachers was designed to break the habits that normally deaden our sensitivities Abramian has therefore selected pieces that remind us to wake up to take stock to continue carefully observing ourselves And by vigilant sequencing of topics his book gently guides readers toward the essence truths or core teachings of these wise ones The translator is uniquely qualified to make this offering to religious studies today As an Iranian by birth a lifelong practitioner of spiritual disciplines and an accomplished teacher of English his renderings are characterized by academic authority poetic word craft and spiritual wisdom
