Workable Sisterhood

Lucretia Pilissa Murphy

Workable Sisterhood:

Workable Sisterhood Michele Tracy Berger, 2010-07-28 *Workable Sisterhood* is an empirical look at sixteen HIV positive women who have a history of drug use conflict with the law or a history of working in the sex trade. What makes their experience with the HIV/AIDS virus and their political participation different from their counterparts of people with HIV? Michele Tracy Berger argues that it is the influence of a phenomenon she labels intersectional stigma, a complex process by which women of color already experiencing race, class, and gender oppression are also labeled, judged, and given inferior treatment because of their status as drug users, sex workers, and HIV positive women. The work explores the barriers of stigma in relation to political participation and demonstrates how stigma can be effectively challenged and redirected. The majority of the women in Berger's book are women of color, in particular African Americans and Latinas. The study elaborates the process by which these women have become conscious of their social position as HIV positive and politically active as activists, advocates, or helpers. She builds a picture of community-based political participation that challenges popular, medical, and scholarly representations of crack-addicted prostitutes and HIV positive women as social problems or victims rather than as agents of social change. Berger argues that the women's development of a political identity is directly related to a process called life reconstruction. This process includes substance abuse treatment, the recognition of gender as a salient factor in their lives, and the use of nontraditional political resources. **Workable Sisterhood**, 2006 *Workable Sisterhood* Michele Tracy Berger, 1998 **Workable Sisterhood**, *Redefining the Political* Alex J. Moffett-Bateau, 2024-09-06 Identifies socio-political concepts and frameworks that can be used to recognize and understand the styles of political engagement, political rebellion, and political identity creation used by poor Black women living in the United States.

Lesbian and Gay Parenting Yvette Taylor, 2009-07-30 Much current work on lesbian and gay kinship still overlooks the significance of socio-economic status. This book explores the intersections between class and sexuality in lesbians and gay men's experiences of parenting and the everyday pathways navigated therein, from initial routes into parenting and household divisions of labour to location preferences, schooling choice, and community supports. In a context of international legal changes, this study seeks to situate parents as both sexual and classed subjects, interrogating the relevance of class and sexual disadvantages. Frequently, lesbian and gay families are positioned at the vanguard of transformations in intimacy, while often empirically absent in such declarations, they are misplaced in this dual over-emphasis as agents of social change and sidelined under investigation when compared to the research on heterosexual families. This book utilizes the concept of social capital, combining a Bourdieusian notion of capital as specifically classed alongside that evidenced in the families of choice literature. The theoretical opposition of different frameworks of social capital advances class conceptualisations.

exploring too the ways that middle classed capitals sometimes do not pay off as a result of occupying non normative sexualities

Sex, Power & Taboo Dorothy E. Roberts,2009 In the Caribbean sexuality has never been a topic for public discussion Previously relegated to theatrical innuendo musical lyrics and other popular forms of cultural expression the HIV and AIDS pandemic have now thrown this taboo subject centrestage The discourse on gender and sexuality is however still being shaped and this book sets the platform for that discussion Proceeding from a premise that gender influences sexuality and sexual behaviour Sex Power and Taboo provides an interdisciplinary approach to the exploration of how gender affects HIV risk and prevention The paradigm of HIV and AIDS research is shifted by illuminating the influence of gender ideologies norms and power relationships on sexuality and the impact of gender to HIV risk and prevention within and outside of the Caribbean The contributors are Caribbean and international and discuss gender and sexuality for the academic for those in the public health service as well as social policymakers Sex Power and Taboo contributes to the research based interventions to aid the prevention of HIV and AIDS and other sexually transmitted diseases and will assist in the design implementation and evaluation of programmes addressing the AIDS epidemic

Neither Villain Nor Victim Tammy L. Anderson,2008 Female drug addicts are often stereotyped either as promiscuous lazy and selfish or as weak scared and trapped into addiction These depictions typify the pathology and powerlessness narrative that has historically characterized popular and academic conversations about female substance abusers Neither Villain Nor Victim attempts to correct these polarizing perspectives by presenting a critical feminist analysis of the drug world By shifting the discussion to one centered on women s agency and empowerment this book reveals the complex experiences and social relationships of women addicts Essays explore a range of topics including the many ways that women negotiate the illicit drug world how former drug addicts manage the more intimate aspects of their lives as they try to achieve abstinence how women tend to use intervention resources more positively than their male counterparts and how society can improve its response to female substance abusers by moving away from social controls such as the criminalization of prostitution and rehabilitative programs that have been shown to fail women in the long term Advancing important new perspectives about the position of women in the drug world this book is essential reading in courses on women and crime feminist theory and criminal justice
