

# Selecting a Six Sigma Project

## Identify Decision Makers

Executives help identify potential projects. Decision makers should include the Six Sigma advisory board members.

## Strategic Issues

All Six Sigma projects must have strategic relevance and be linked to the core business issues.

## Selection Criteria

Develop additional criteria for judging the project as a Six Sigma project. This includes scope, process issues, measuring outcomes.

## Determine the Process

Even after establishing the selection criteria and comparing the potential projects against the criteria, selection of the final projects can be quite subjective.
