Augustine's Theory of Signs, Signification, and Lying Remo Gramigna, 2020-01-20 The aim of this study is to present as far as possible a general description of the theory of the sign and signification in Augustine of Hippo 354 430 AD with a view to its evaluation and implications for the study of semiotics Accurate studies for subject discipline and significance have not yet given an organic and systematic vision of Augustine's theory of the sign The underlying aspiration is that such an endeavour will prove to be beneficial to the scholars of Augustine's thought as well as to those with a keen interest in the history of semiotics The study uses Augustine's own accounts to investigate and interpret the philosophical problem of the sign The focus lies on the first decade of Augustine's literary production The *De dialectica* is taken as the terminus ad quo of the study and the *De doctrina christiana* is the terminus ad quem The selected texts show an explicit engagement with poignant discussion on the nature and structure of the sign the variety of signs and their uses Although Augustine's intention never was to establish a theory of meaning as an independent field of study he largely employed a theory of signs Thus Augustine's approach to signs is intrinsically meaningful

Dignaga on the Interpretation of Signs R.P. Hayes, 1988-02-29 Buddhist philosophy in India in the early sixth century C E took an important turn away from the traditional methods of explaining and systematizing the teachings in Sutra literature that were attributed to the Buddha The new direction in which several Indian Buddhist philosophers began to move was that of following reasoning to its natural conclusions regardless whether the conclusions conflicted with traditional teachings The central figure in this new movement was Dignaga a native of South India who found his way to the centre of Buddhist education at Nalanda studied the treatises that were learned by the Buddhist intellectuals of his day and eventually wrote works of his own that formed the core of a distinctly new school of Buddhist thought Inasmuch as virtually every Indian philosopher after the sixth century had either to reject Dignaga's methods or build upon the foundations provided by his investigations into logic epistemology and language his influence on the evolution of Indian philosophy was considerable and indeed some familiarity with Dignaga's arguments and conclusions is indispensable for anyone who wishes to understand the historical development of Indian thought Moreover since the approach to Buddhism that grew out of Dignaga's meditations on language and the limits of knowledge dominated the minds of many of the scholars who took Buddhism to Tibet some familiarity with Dignaga is also essential to those who wish to understand the intellectual infrastructure of Tibetan Buddhist philosophy and practice
