Smith,2012-01-04 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to The Making of the West The book s chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize

fundamental relationships The Slave Trade Hugh Thomas,2013-04-16 After many years of research award winning historian Hugh Thomas portrays in a balanced account the complete history of the slave trade Beginning with the first Portuguese slaving expeditions Hugh Thomas describes and analyzes the rise of one of the largest and most elaborate maritime and commercial ventures in all of history Between 1492 and 1870 approximately eleven million black slaves were carried from Africa to the Americas to work on plantations in mines or as servants in houses The Slave Trade is alive with villains and heroes and illuminated by eyewitness accounts Hugh Thomas s achievement is not only to present a compelling history of the time but to answer controversial questions as who the traders were the extent of the profits and why so many African rulers and peoples willingly collaborated *The Making of the West, Combined Volume* Lynn Hunt,2012-01-04

Stand the Storm Edward Reynolds,1993 A multitude of black people of every description chained together every one of their countenances expressing dejection and sorrow stripped naked shaved and crammed into the steaming holds of the vessels Over a period of three centuries ten million slaves were transported from Africa to the Americas amidst appalling conditions that went unheeded until the social pressures of the nineteenth century put an end to the trade Thousands died even before they could be auctioned but the supply was so plentiful it made little economic difference In this graphic portrait of the Atlantic slave trade Edward Reynolds uses primary and contemporary sources to present a realistic and balanced picture of the trade and its consequences Beginning with the African background he traces the impact of the trade on both Africa and the West shows the resilience of African societies and along the way demolishes a good many historical myths *Stand the Storm* is clearly the best short history in print Remarkably comprehensive clearly and simply written and uncluttered with figures and tables Choice The value of this succinct and readable volume lies in the immense amount of material the author has rendered manageable for the general reader *New Statesman* **The Making of the West, Volume**
