International Conciliation ,1917 **PHYSICS AND SUFI COSMOLOGY** Sardar Irshad Shaheen,2023-11-27 The perennial enigma the human mind has been encountering is the meaning of life and its place in the universe On this subject science and spirituality remained in discord with each other particularly for the last couple of centuries The Theory of Relativity followed by quantum mechanics changed the worldview of traditional mindset altogether The postulates of quantum physics paved the way for growing interest in philosophical spirituality Theoretical physicist Fritjof Capra's book *The Tao of Physics* explored parallels between Eastern mysticism and modern science Toshihiko Izutsu in his book *Sufism and Taoism* found similarities between Taoism and Muslim mysticism or Sufism The book under review attempts to discover compatibility between Sufism and modern cosmology It is basically a research book with more than seven hundred 700 citations of authorities of various disciplines drawing from a vast array of diverse fields such as physics philosophy biology psychology and spirituality The book probes into the nature and value of existence which ultimately leads to the direction of interconnection of the universe and human psyche unity and integration of all things and ultimately the unity of the whole universe and the whole person These views are not placed on the shaky foundations of faith but they are based on philosophical logic and scientific facts regarding importance of man as an observer in the universe despite appearing insignificant on a point like planet in the stunning vastness of empty space and magnificent integration and harmony of the human psyche with the cosmos These aspects of the book are unique in the sense that they amazingly reveal commonalities between physical and spiritual concepts and explain the phenomenon of existence as a compact whole in a coherent and logical sequence with a glimpse of futuristic existence This book may be of particular interest to the academia research scholars and students who may find the contents of the book unique and even startling The author of the book is a research scholar from Pakistan who has been dedicated to exploring the reality of the physical world and human life He has accentuated quite subtle and intricate issues in his book His contribution to the relevant subject appears to have originality and at times remarkable distinction The author believes that the contents of this book may not be found in any other single book published so far **How This Universe Works** ,2024-03-11 A BOOK BY WWW IMAGINESPACETIME COM A SCIENCE PHYSICS AND GEOGRAPHY NEWS AND INFORMATION CHANNEL *IMAGINE SPACETIME* Hiten Shelar , *IMAGINE SPACETIME* www.imaginespacetime.com is a science Physics and Geography news and information channel and Science eBook Publisher The channel and website is founded and owned by Hiten Shelar who is an Astrophysicist and Bestselling Author Inspired by his Book *IMAGINE SPACETIME* the science platform aims at delivering quality content on interesting topics on Astrophysics Astronomy Geography Oceanography and other related subjects The website covers various Topics on Science Technology and Engineering provoking Human curiosity towards Science This book is an Astrophysics and cosmology book brought to you by www.imaginespacetime.com **The Boy with the Apron Cape** G. Ghinamo,2013-02-05 Are science and faith antithetic Are the new discoveries in science making faith in God totter Or can science be the basis for strong faith and the belief in a Creator Discover how The Beautiful Scientist takes an interesting look at science and faith and how the two can work together to prove there is a Creator Corrado Ghinamo believes it is the very existence of the universe that allows people to see there is a super entity there is a God He uses scientific evidence like the Big Bang Theory the smallest particles of the universe the galaxies and what he calls the Super Force to prove just that God does exist Creation and evolution are not two separate ideals rather evolution is one of the means that God used and still uses in creating and governing the universe Ghinamo shows that God is a logical necessity to complete the vision of scientist s universe The same goes for people of faith there is scientific evidence that can further the existence of a Creator The Beautiful Scientist A Spiritual Approach to Science uses easy to understand language examples from everyday life and an easy to follow structure to prove that the universe far more beautiful and complex than people can imagine was in fact created by God and that evidence and rationality in science can lead to the belief in God *Astrophysics and Cosmology For Non-mathematicians : How to Picture this Universe at Bizarre Spacetime Curvatures and at the Cosmic Level.* Hiten
