*Charlotte Perkins Gilman's The Yellow Wall-Paper* Julia Esau,2012-05-21 Essay from the year 2010 in the subject English Language and Literature Studies Literature grade 1 0 University of Tübingen language English abstract When you read *The Yellow Wall Paper* written by Charlotte Perkins Gilman the first time it gives you on one hand a feeling of compassion for the narrator and on the other hand you feel anger for the rude way she is treated by her husband and doctor and for the injustice the narrator has to bear Nowadays where it would be unimaginable for a woman to accept this destiny you cannot understand why the narrator does not defend herself against her medical therapy and the way her husband is treating her In the 19th century when this story probably takes place it was the most usual way to cure women with mental problems To analyze the story it must be related to the context of the 19th century and not of these days The medical knowledge and the relationship between husband and wife were just absolutely different than today By looking on marriage and medicine in the time Charlotte Perkins Gilman wrote *The Yellow Wall Paper* it becomes clear that neither her husband nor her medical therapy can be called unfair or unjust at least not in the historical context **The Wallpaper Magazine** ,1953

*Wallpaper and the Artist* Marilyn Oliver Hapgood,1992 The book examines how major artists over the last five centuries have approached wallpaper design From Durer who conceived his designs as seriously as he did a fine woodcut to William Morris who believed that wallpaper like all good design should transform our lives to Andy Warhol whose fascination with multiple images inspired brilliant parodies of the wallpaper tradition the artists represented here reveal the rich complexity inherent in the art of pattern and form that constitutes wallpaper design **Zuber** Brian D. lavish coverings such as frescoes tapestries leathers or hangings Its current form debuted in sixteenth century England and its popularity took off at the end of the eighteenth century following advances in reproduction techniques Wallpaper transformed the world of interiors offering depth and perspective creating the illusion of panoramic vistas and incorporating narrative sequences collections of engravings or brief morality or history lessons It eventually developed into the wide range of styles that have marked four centuries of decorative art from Raphael to conceptual art and from frescoes to photography This stunning contribution to wallpaper s current revival offers a comprehensive review of a savoir faire that continues to thrive
