Wallace Factor:

The Wallace Factor Philip Crass,1976 **The Men and the Moment** Aram Goudsouzian,2019-03-05 The presidential election of 1968 forever changed American politics In this character driven narrative history Aram Goudsouzian portrays the key transformations that played out over that dramatic year It was the last Old Politics campaign where political machines and party bosses determined the major nominees even as the New Politics of grassroots participation powered primary elections It was an election that showed how candidates from both the Left and Right could seize on hot button issues to alter the larger political dynamic It showcased the power of television to package politicians and political ideas and it played out against an extraordinary dramatic global tableau of chaos and conflict More than anything else it was a moment decided by a contest of political personalities as a group of men battled for the presidency with momentous implications for the nation s future Well paced accessible and engagingly written Goudsouzian s book chronicles anew the characters and events of the 1968 campaign as an essential moment in American history one with clear resonance in our contemporary political moment

understanding the contributions governors have made to defining democracy and shaping American history Structured chronologically A Legacy of Leadership places governors in contrast and comparison with one another as well as within the context of their times to show how a century of dramatic developments war and peace depression and prosperity led governors to rethink and expand their positions of leadership The nine chapters of compelling new scholarship presented here connect the experiences of dynamic individual governors and the evolution of the gubernatorial office to the broader challenges the United States has faced throughout the turbulent twentieth century Taken together they demonstrate how interstate cooperation became essential as governors increasingly embraced national and international perspectives to promote their own states competitiveness Published for the centennial of the National Governors Association A Legacy of Leadership is an eloquent demonstration of how to a great extent we live in a country that governors created *An*
