

Sleep Optimization

How to Sleep Better

Sleep in a comfortable bed with non-toxic, pleasing bedclothes

Expose yourself to natural stimuli
(e.g., sunlight, the surface of the Earth)

Stress down in the hours before bed
(e.g., minimize cell phone usage and stressful work activities)

Minimize your exposure to artificial light at night
(e.g., use candles, install light-adjustment software on your PC)

Work on improving your general health
(e.g., by addressing your microbiome and immune status)

Exercise, but not directly before you hit the sack

Consider taking a cold shower or bath prior to sleeping

Stick to a routine
(e.g., go to bed at roughly the same time most days)

Avoid brain stimulants
(e.g., sugary foods, carbs-rich dairy products, coffee)

Sleep in a cool, ventilated, dark room
