Structural Reform And Economic Policy:

Structural Reform and Macroeconomic Policy R. Solow,2004-06-29 The relation between structural reform and macroeconomic policy underlies the widespread perception that the large European economies have under performed in the past decade in comparison both with their own standards and with the contemporaneous performance of the United States This book edited and introduced by Noel Laureate Robert M Solow provides analyses of how these economies could take a coordinated and simultaneous approach to reform in labour and product markets and the demand side *Economic Policy Reforms 2012 Going for Growth* OECD,2012-02-24 Going for Growth is the OECD s annual report highlighting developments in structural policies in OECD countries It identifies structural reform priorities to boost real income for each OECD country and key emerging economies *When Do Structural Reforms Work? On the Role of the Business Cycle and Macroeconomic Policies* MissAnna Rose Bordon,Mr.Christian Ebeke,Ms.Kazuko Shirono,2016-03-15 Structural reforms are expected to lift growth and employment but their effects are surprisingly difficult to pin down empirically One reason is their potential endogeneity to the economic environment in which they are conducted For example the impact of a reform implemented shortly before a cyclical upswing is difficult to distinguish from the recovery itself Similarly macroeconomic policies conducted along a structural reform could affect the estimated impact Exploring various options this paper develops robust estimates of the impact of labor and product market reforms by using local projection techniques while controlling for endogeneity of reforms and other biases The results suggest that labor and product market reforms have a lagged but positive impact on employment creation and the positive effect remains even after controlling for the endogeneity of the decision to reform Supportive macroeconomic policies are found to increase the effect of labor and product market reforms consistent with the view that some structural reforms are best initiated in conjunction with supportive fiscal or monetary policy **Institutions for Economic Reform in Asia** Philippa Dee,2009-12-16 Consisting of theoretical chapters and six country case study chapters this book sets out some of the principles that are critical to success in regional cooperation and the ways APEC can promote structural reform efforts in APEC economies *Economic Policy Reforms 2009 Going for Growth* OECD,2009-03-03 Going for Growth 2009 highlights the most appropriate structural reforms to pursue to improve performance takes stock of recent progress in implementing structural policy reforms and identifies five policy priorities for each OECD country that could lift economic growth in the long run *Economic Policy Reforms 2015 Going for Growth* OECD,2015-02-09 This publication is the OECD s annual report highlighting developments in structural policies in OECD countries and the key emerging economies **Economic Policy Reforms 2007 Going for Growth** OECD,2007-02-13 Based on a broad set of indicators of structural policies and performance Going for Growth 2007 takes stock of the recent progress made in implementing policy reforms and identifies for each OECD country five policy priorities to lift growth **Economic Policy Reforms 2016 Going for Growth Interim Report** OECD,2016-02-26 Going for Growth is the OECD

Labor and Product Market Reforms in Advanced Economies Angana Banerji,Mr.Valerio Crispolti,Ms.Era Dabla-Norris,Mr.Romain A Duval,Mr.Christian H Ebeke,Davide Furceri,Mr.Takuji Komatsuzaki,Mr.Tigran Poghosyan,2017-03-13 Product and labor market reforms are needed to lift persistently sluggish growth in advanced economies But reforms have progressed slowly because of concerns about their distributive and short term economic effects Our analysis based on new empirical and numerical analysis and country case studies shows that most labor and product market reforms can improve public debt dynamics over the medium term This because reforms raise output by boosting employment and or labor productivity But the effect of some labor market reforms on budgetary outcomes and fiscal sustainability depends critically on business cycle conditions Our evidence also suggests that some temporary and well designed up front fiscal stimulus can help enhance the economic impact of reforms In the past countries have used fiscal incentives in the past to facilitate reforms by alleviating transition and social costs But strong ownership of reforms was crucial for their successful implementation *APEC Economic Policy Report* ,2008
